What are Layers? 🤔

Imagine with me! ✨

Layers are like transparent glass sheets 📄 ✨

Each layer = a glass sheet you can draw on separately!

💡 Example: If you draw a sun on one layer, and mountains on another, you can move them easily! 🏔️

Sun Layer

Mountains Layer

Why Use Layers?

Organize Your Art

Put far things in the back, and close things in the front! Like playing with order 🎨

Easy to Edit

Made a mistake? No problem! Delete the layer and redraw without ruining the rest! 🔄

Hide & Show

You can remove a layer like it disappeared! Or bring it back again! Real magic! ✨

Try Colors

Try different colors in each layer! Red, Blue, Green – play with colors! 🎨

Layers make drawing easier and more fun! ✨

Story of Sun & Mountains

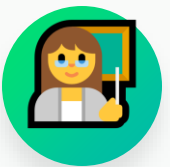

Ahmed asks:

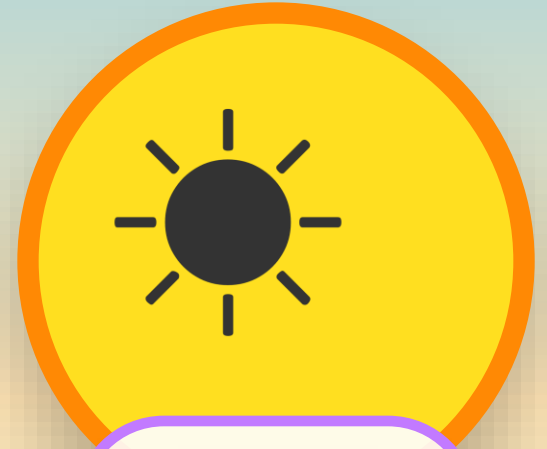

"I drew a beautiful sun in yellow and orange! ☀️"

Now I want to draw mountains and hide the sun behind them! 🏔️

How can I do that?"

✎️ "Yes! You can do that using **layers**!"

How do we do it?

1 Step 1: Draw the Sun 🌞

Let's Start Drawing! 🎨

- 1 Open your drawing app on your device 📱
- 2 Create a **new layer** and name it "Sun" ✨
- 3 Choose **yellow** and orange colors 🟡 🟠
- 4 Draw a big beautiful circle! 🌞

💡 Great! The sun is ready now! ✨

Step 2: Add New Layer +

How to Add a Layer? 🤔

Look for the "New Layer" button +

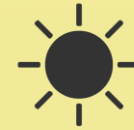

Click it once! 🖱️

There it is! A new layer appeared above the sun layer! ✨

Important: The new layer is **above** the sun layer! 🔒

Sun Layer

(at the bottom)

New Layer

(at the top)

3

Step 3: Draw Mountains

Let's Draw Mountains!

1

Make sure you're on the **new layer** ☒

2

Choose **green** or **brown** color  

3

Draw tall mountains at the bottom of the picture! 

Look! The mountains cover part of the sun! 

Sun Layer

Mountains Layer

Layer Order is Very Important! 📖

Important Rule! 🎯

Top layers
cover what's below!

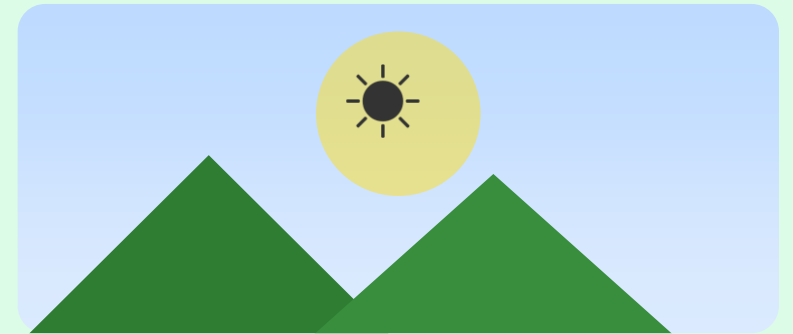

Mountains on **top** = cover the sun ✓

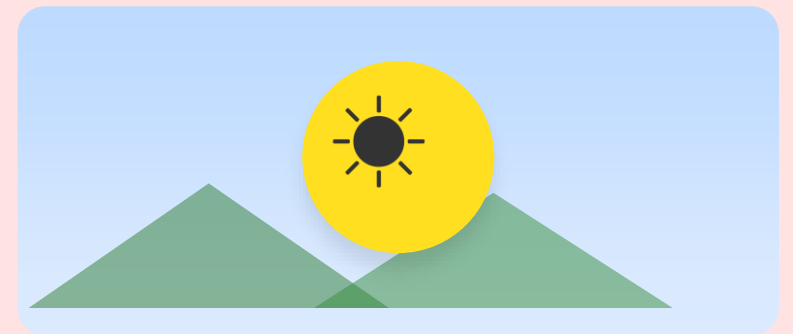

Sun on **top** = cover the mountains X

✓ Correct!

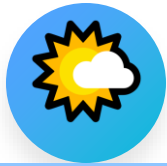

Mountains above Sun

X Wrong!

More Great Examples! ✨
