

Files and Folders

For First Grade Students

What are Files?

A file saves information in the
computer

Files can be different types

Different Types of Files

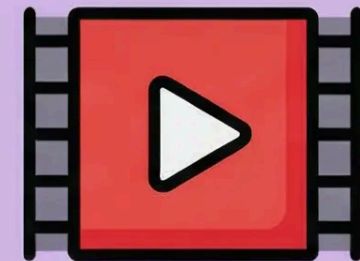

Documents

Pictures

Music

Videos

What are Folders?

Folders are like a school bag

They keep files together and organize work

How Folders Look on Computer

Folders have yellow icons

Empty Folder

Has no files

Nothing
inside!

Files and
plyers inside!

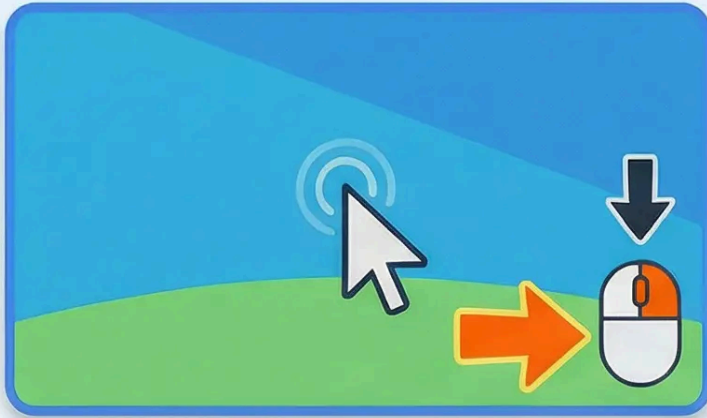

Folder with Files

Has different files

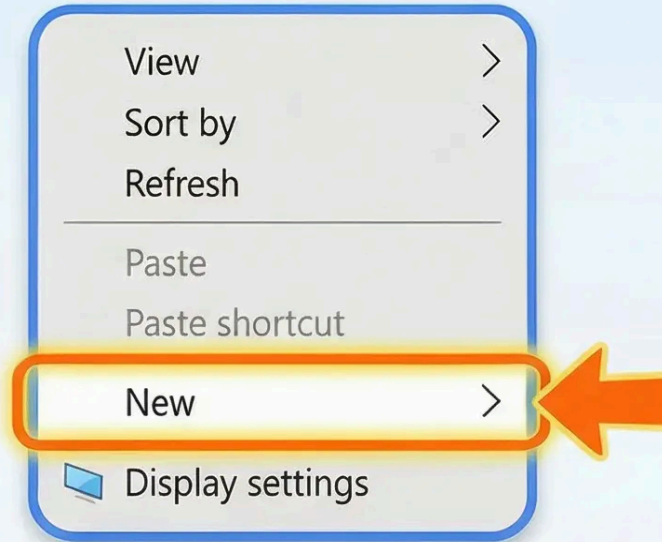

Look for yellow icon cards to find folders!

How to Create a New Folder

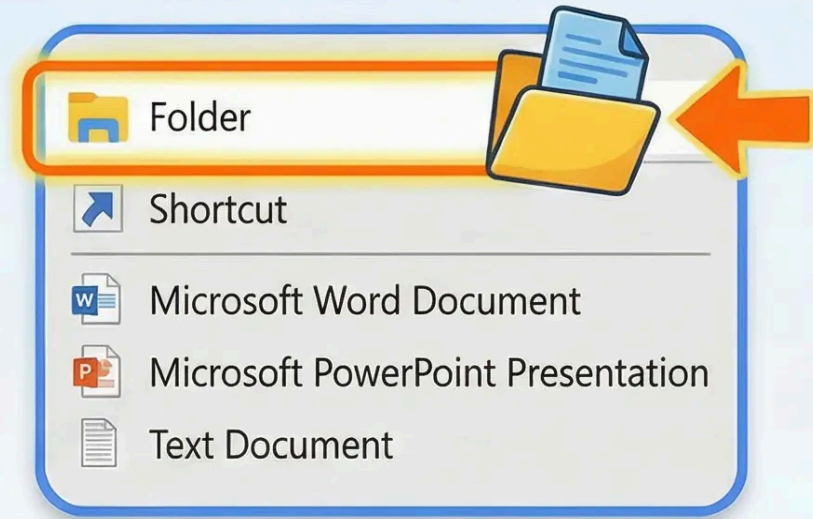

Step 1: Right-click on desktop

Step 2: Choose "New"

Step 3: Choose "Folder"

Naming the Folder

It's important to give good names to folders so we know what's inside easily

Choose a name that tells you about the folder's content!

My Pictures

Example:

My Homework

Interactive Exercises

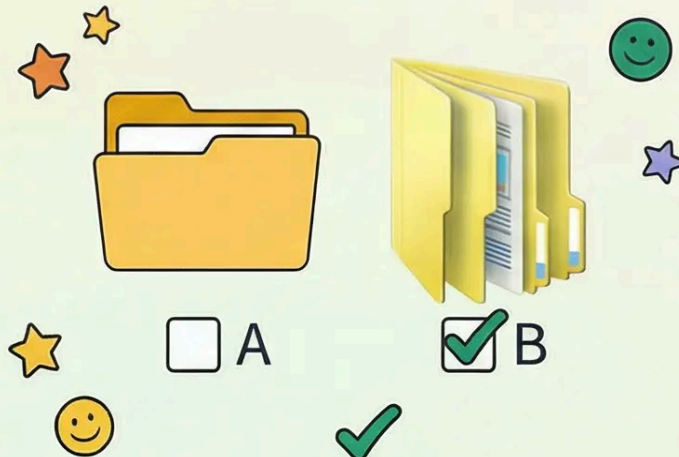

Fun activities to practice what we learned

Activity 1: True or False

___ Files have different types .1.

___ Folders save different files .2.

Activity 2: Choose the Empty Folder

Activity 3: Types of Files

Well done! You learned a lot about files and folders
