

My Desktop

Did you know you can change your computer's background image — even use your own drawings? Let's explore the Desktop and everything on it!

What is the Desktop?

Just like books are neatly arranged in a library to make them easy to find, the computer screen where all the icons are arranged is called the **Desktop**.

Exploring the Desktop

The Desktop has five key parts: **Icon**, **Wallpaper**, **Taskbar**, **Search Bar**, and **Start Button**.

Wallpaper & Icons

This PC

Double-click to see an overview of everything inside your computer — folders and drives.

Recycle Bin

Stores deleted items temporarily. You can **restore** files or delete them permanently.

Wallpaper

The **background image** on the Desktop is called the Wallpaper. A few default Windows images come with every computer.

Icon

The small objects on the screen are called **icons**. Icons can be files, folders, or applications.

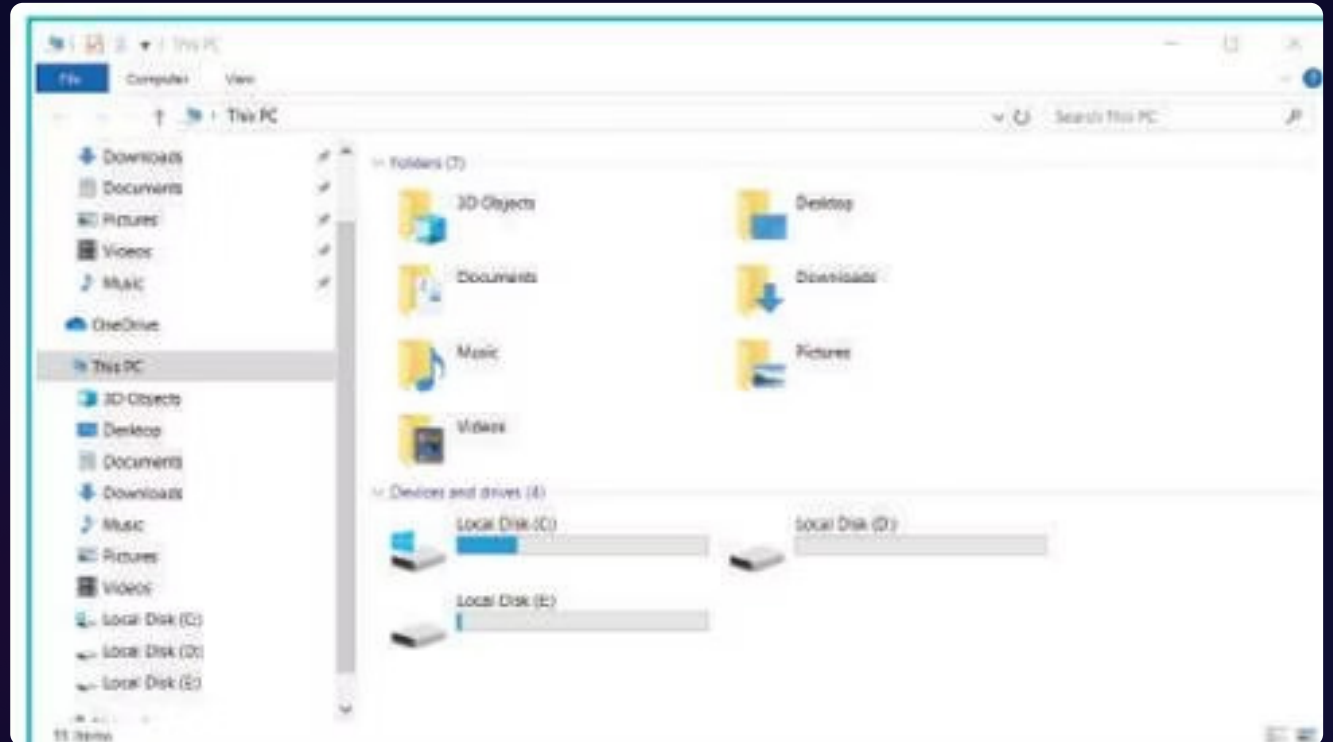

This PC & Recycle Bin

This PC

Shows all folders (Documents, Music, Videos) and drives (Local Disk C:, D:).

Recycle Bin

Like a dustbin — holds deleted files until permanently removed. Restore anytime!

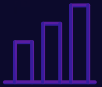

Full

Empty

Taskbar, Search Bar & Start Button

Taskbar

The bar at the **bottom** of the Desktop. Shows running apps and lets you pin frequently used ones.

Search Bar

The white text area next to the Start Button. Used to **search** for data on the computer.

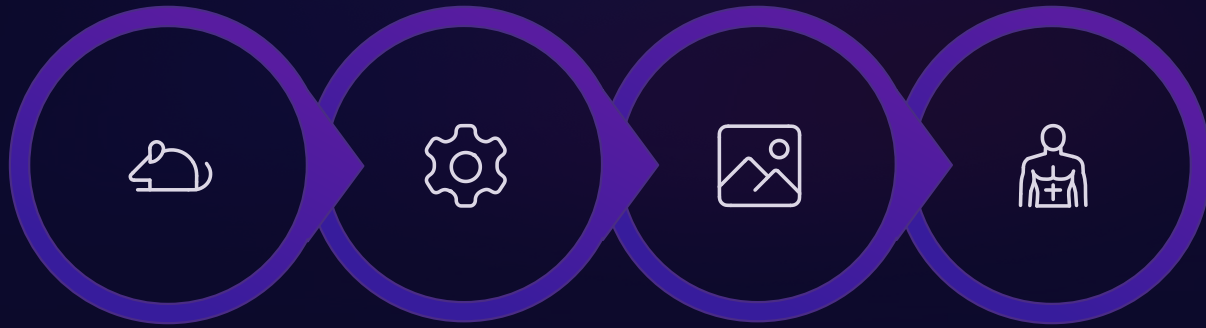

Start Button

The square button with **4 boxes** in the bottom-left corner. Opens access to all applications.

Activity 1: Change Wallpaper Using Default Images

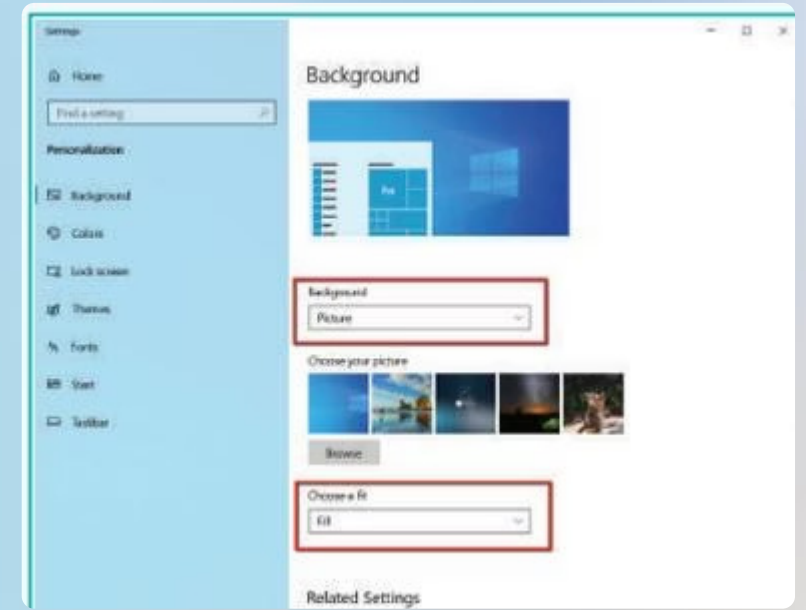

Right-click

Personalize

Set Picture

Choose & Fill
