

Explore the Internet

There is so much information out there! Let us look for some on the internet.

Mom, I have to write about our national animal, Dromedary camel. But, I cannot find a lot of information about it in my books.

Internet is a medium for computers to communicate. Through this, they share information with each other. It is like the way humans communicate when they talk, write or use hand signs.

We use a software to connect to the internet. This is called a **Browser**.

In a Windows computer, there is a browser already setup. This is called the **Edge Browser**. A browser is used to read and search for **websites**. **Kiddle** is one such website.

Bytes

A Website is a set of pages which has information about various things on the internet.

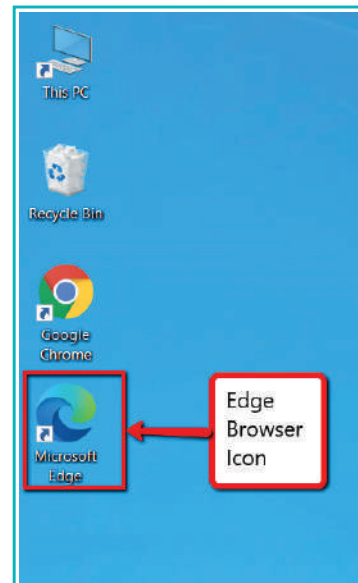

Exercise

Fill in the blanks

- 1 The medium through which computers share information is called the _____.
- 2 The software used to connect to the internet is called _____.
- 3 The default browser installed in a Windows Computer is _____.

Steps to open Kiddle

- 1 On the Desktop screen locate **Edge Browser**. You can also type Microsoft Edge in the search bar.
- 2 Double click on the **icon**.

- 3 In the browser, type **www.kiddle.co** in the **address bar** on top.

- Make sure the spelling is correct. The dots (full stops) are important when we type the name of the website. They should be used in the correct places.

Using Kiddle

- 1 When you open Kiddle, your screen will look like this:

- **Search Bar** is the empty text area. This is where we type what we want to look for. What we type is called a **search term**.

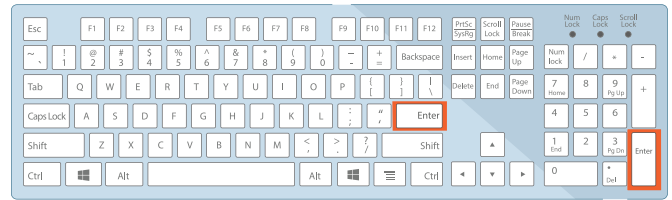

The types of search categories in Kiddle are:

- **Kpedia** : for articles
- **Kimages** : for images and videos

12. Explore the Internet

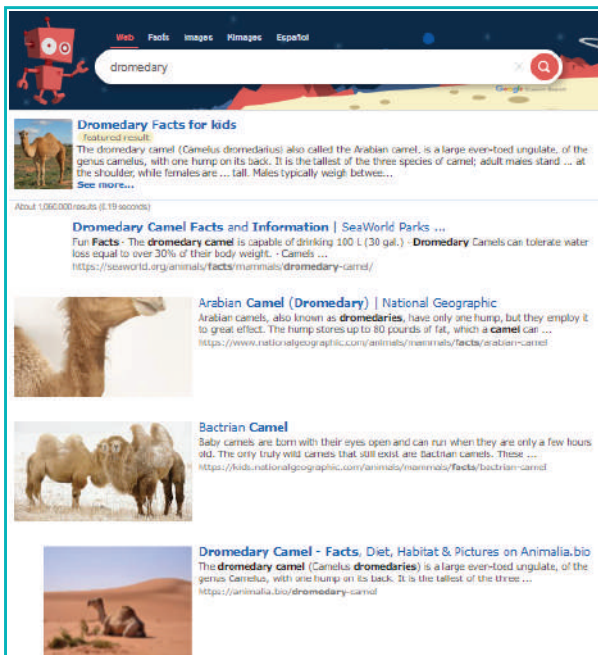

Using Kiddie

- 2 Type D-r-o-m-e-d-a-r-y in the search bar and press Enter.

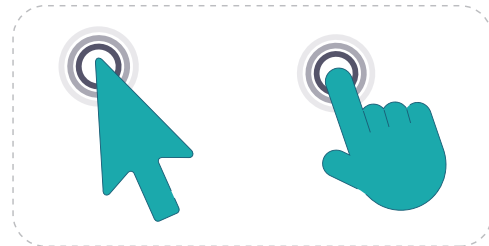

- You can also click the **search button** on the screen.

- 3 You will see a search result about dromedary like this.

- The information is given in blocks. The text is in two different colours: Blue and Black. When we **hover** our mouse on the blue coloured text, the arrow pointer will change to a hand sign.

- The blue coloured text is called a **Link**.

Bytes

A link is part of text on the webpage. When clicked, it will take us to a new page.

12. Explore the Internet

Using Kiddie

4 When we click on the blue text, a new page will open with information about Dromedary camel.

5 When we click on the third link, we get information which looks like this:

DROMEDARY CAMEL

Camel, Arabian camel, One-Humped camel, Dromedary

8 languages ▾

KINGDOM	Animalia
PHYLUM	Chordata
SUBPHYLUM	Vertebrata
CLASS	Mammalia
ORDER	Artiodactyla
FAMILY	Camelidae
GENUS	Camelus
SPECIES	Camelus dromedarius

LIFE SPAN	TOP SPEED	WEIGHT	HEIGHT	LENGTH
40-50 YEARS	64 KM/H MPH	300-600 KG LBS	1.7-2 M FT	2-3 M FT

The dromedary camel (*Camelus dromedaries*) is a large even-toed ungulate, of the genus *Camelus*, with one hump on its back. It is the tallest of the three species of camel. It has not occurred naturally in the wild for nearly 2,000 years. It was probably first domesticated in the Arabian Peninsula about 4,000 years ago and its wild range seems to have been restricted to the peninsula.

6 To search for another term, left click on the empty space in **search box**. Use the same steps as before to find information.

Exercise

Fill in the blanks

- 4 To search on internet, we type the search term in _____.
- 5 A _____ opens a new page when we click on it.
- 6 We can search for information in the form of _____, _____ and _____.

Match the following

- | | |
|----------------|--|
| 7 a. Link | g. The mode of communication between computers |
| b. Website | h. The website that is used to search for information |
| c. Internet | i. The term that we want to search on the internet |
| d. Search Term | j. The coloured text that when clicked takes us to different webpage |
| e. Kiddle | k. Collection of information on the internet |
| f. Browser | l. The software that connects a computer to the internet |

Healthy Practices :

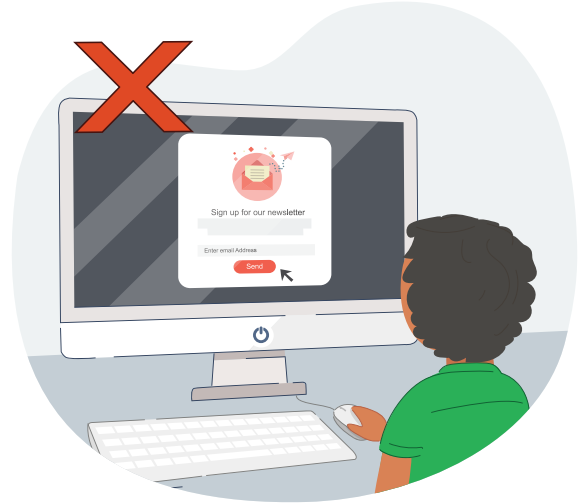

Internet safe usage guidelines:

- Always use the internet when a parent or teacher is around.
- Do not give your personal information on the internet. Like your home & school address, parents' mobile number or any contact details.

12. Explore the Internet

- Do not click or open any unsafe link which appears randomly on the screen.
- Do not use any internet resource without permission.

Yes. The Internet is very useful to us.

Thanks for the help, Mom. I've learnt a lot about dromedary camel and the internet today. Now I can use the internet to do all my projects!

Tech Flash

- 1. Internet** : Internet is the medium through which computers share information with each other
- 2. Online** : When we are connected to internet, we are online.
- 3. Search** : Search is a function used to find an information on the computer or on the internet
- 4. Search Bar** : Search bar is an empty text space where we can enter a search term to find information.
