

My Desktop

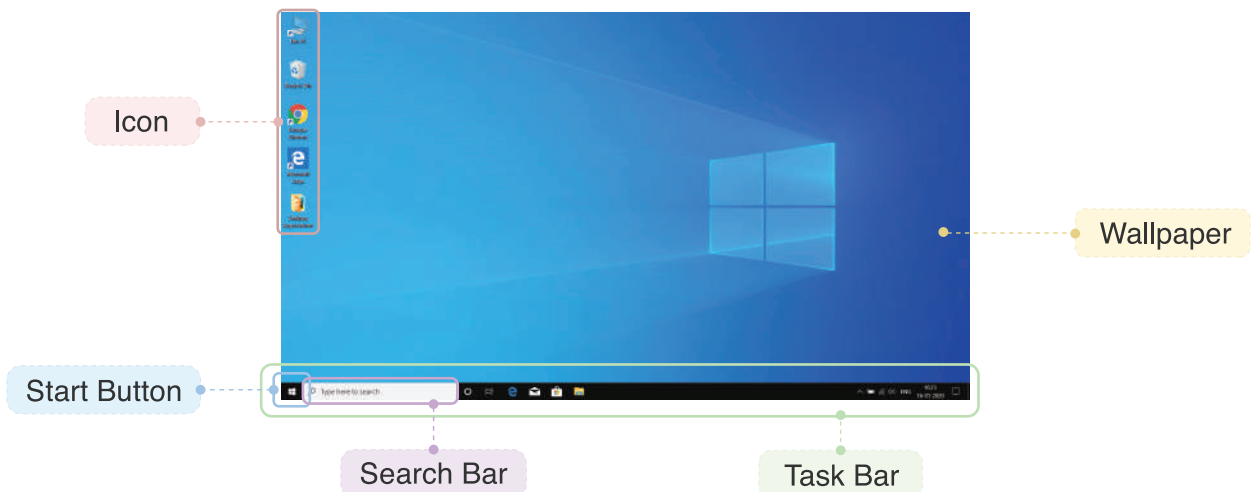

Woah! Your computer screen looks amazing.
How did you do that?

Hey thanks, you can do this by
changing the background image of
your computer. You can even
use your own drawings.

The computer screen is called the **Desktop**. You must have seen how books are neatly arranged in a library so that it is easy to find them. In the same way, the computer screen where all the icons are arranged is called the Desktop.

Exploring the Desktop:

a. Wallpaper

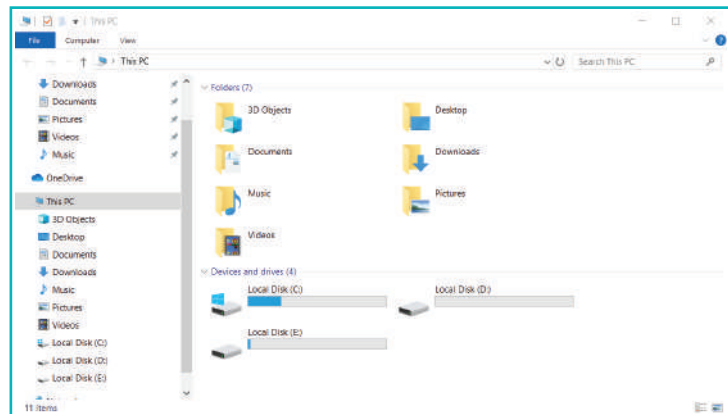

- The background image that you set on the desktop is called the **Wallpaper**.
- Few default Windows images are present in all computers.

b. Icon

- The small objects that you see on the screen are called **Icons**.
- Icons are either files, folders or an application.
- There are two common icons on a Desktop. They are:

1. Icon of **your PC** :

When you double click **This PC** icon you will get an overview of what is there inside the computer. It will look like this:

2. Icon of **Recycle Bin** :

The Recycle Bin is used to store deleted items just like a dustbin where you throw items which are not required. Recycle bin temporarily stores files and folders before they are permanently deleted. **In case you need the deleted file back you can also restore.**

You can open the Recycle Bin by double-clicking the icon on the desktop. The Recycle Bin window allows you to delete items individually or restore them to their original location.

Empty Recycle Bin

Full Recycle Bin

c. Taskbar

- The bar at the bottom of the Desktop is called the **Taskbar**.
- The way regularly used items are placed in shelves so that it becomes easier to find them, in the same way the applications that are regularly used can be placed in the Taskbar and it also shows the running applications on the computer.

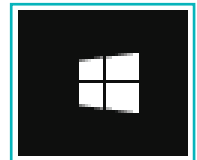

d. Search Bar

- **Search Bar** is the white text area which can be used to search data on the computer.

e. Start Button

- The square shaped button with 4 boxes in the leftmost corner of screen is the **Start Button**.
- Start Button allows us to access all the applications present in the computer.

Exercise

Fill in the blanks:

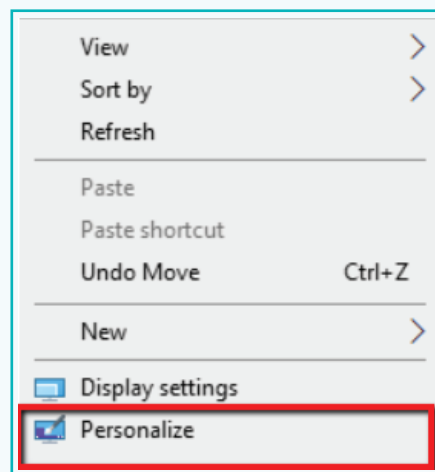

- 1 The computer screen is called as _____.
- 2 The small objects that we see on the desktop are called as _____.
- 3 The Search Bar can be used to _____ data on computer.
