

Desktop

First Grade

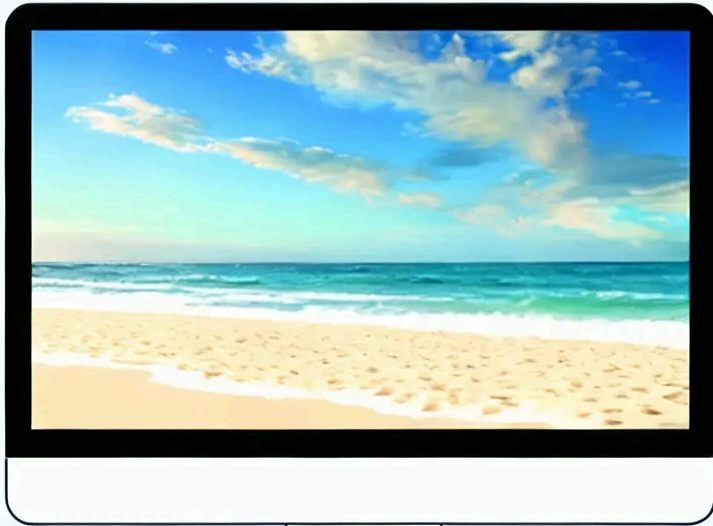

What is the Desktop?

The desktop is the computer screen where all icons are arranged like books in a library.

Screen Background

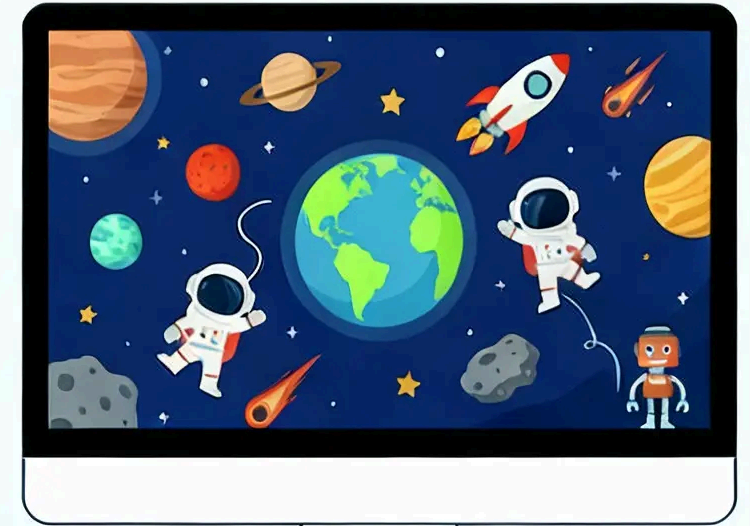

The background picture of the desktop is called screen background and you can change it and use your own drawings.

Nature Scenes

Cute Animals

Space

Icons

The small things on the screen are called icons
and they are files or folders or apps.

Files

Folders

Apps

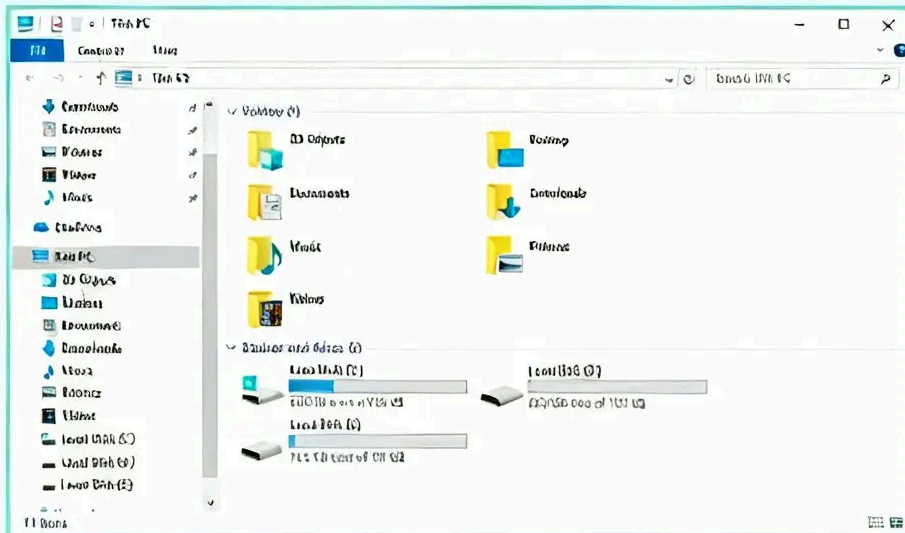

Computer Icon and Recycle Bin

This PC

The computer icon shows what's inside the computer when you click it twice.

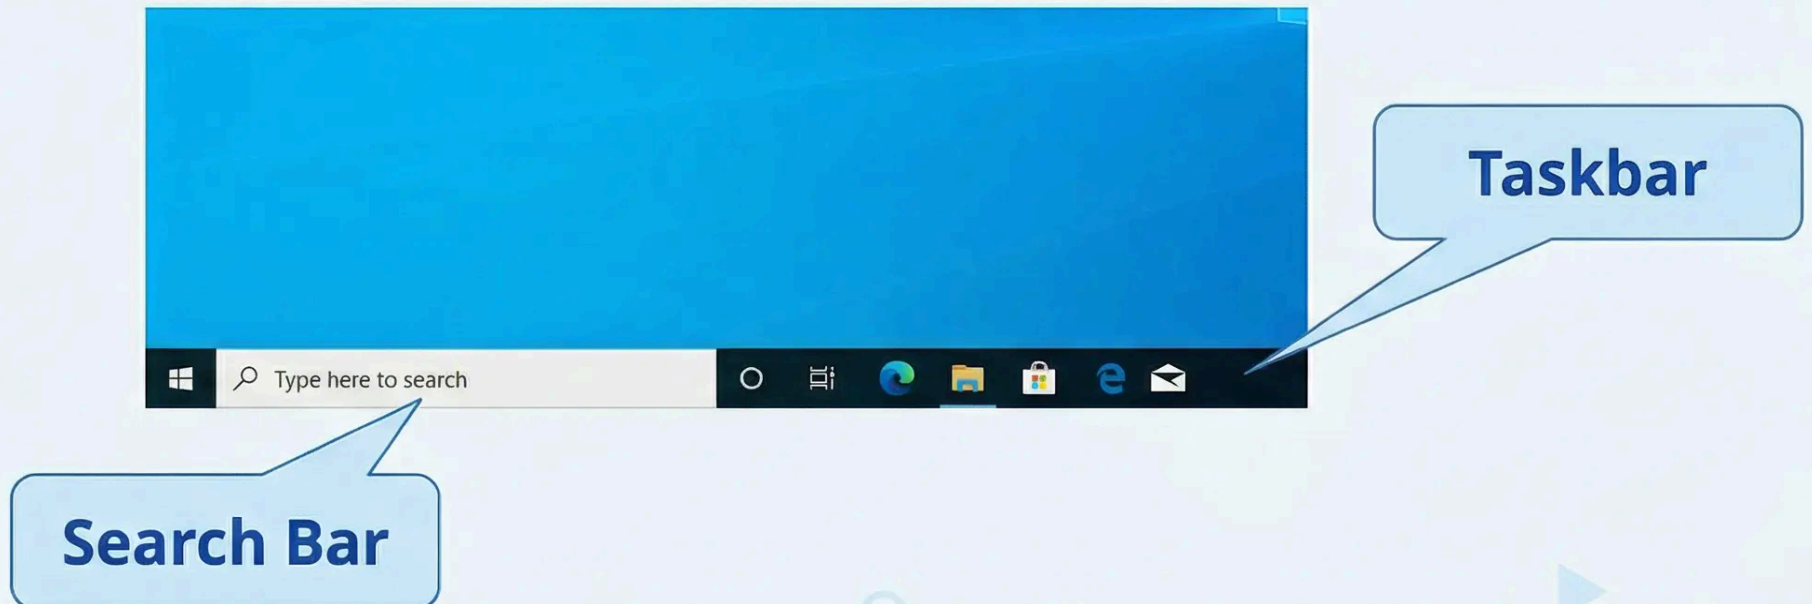

The recycle bin keeps deleted files for a while and you can get them back.

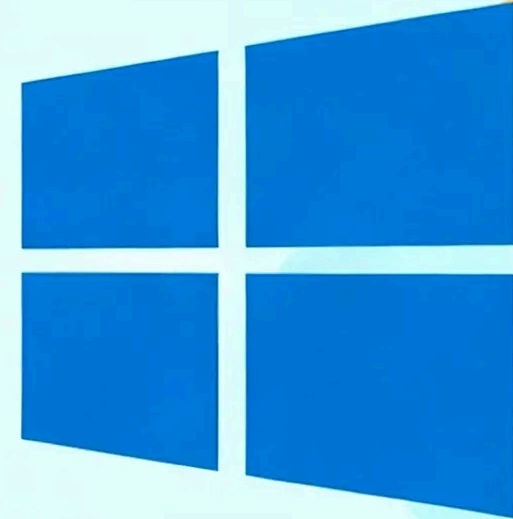

Taskbar and Search Bar

The taskbar at the bottom of the screen has the apps you use and the search bar to search in the computer.

Start Button

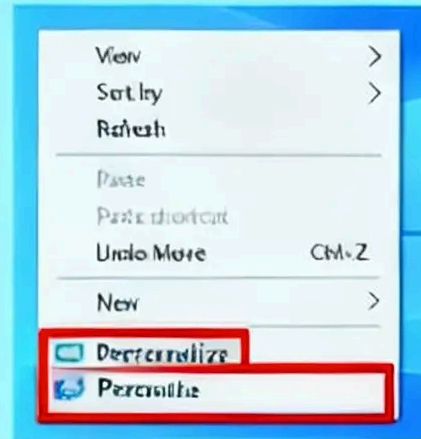

The square button in-
the left corner lets
you reach all apps in
the computer.

How to Change Screen Background

Steps:

Step 1. Right-click on the desktop

Choose "Personalize" from the menu

3. Choose your favorite background
