

5. Create Documents

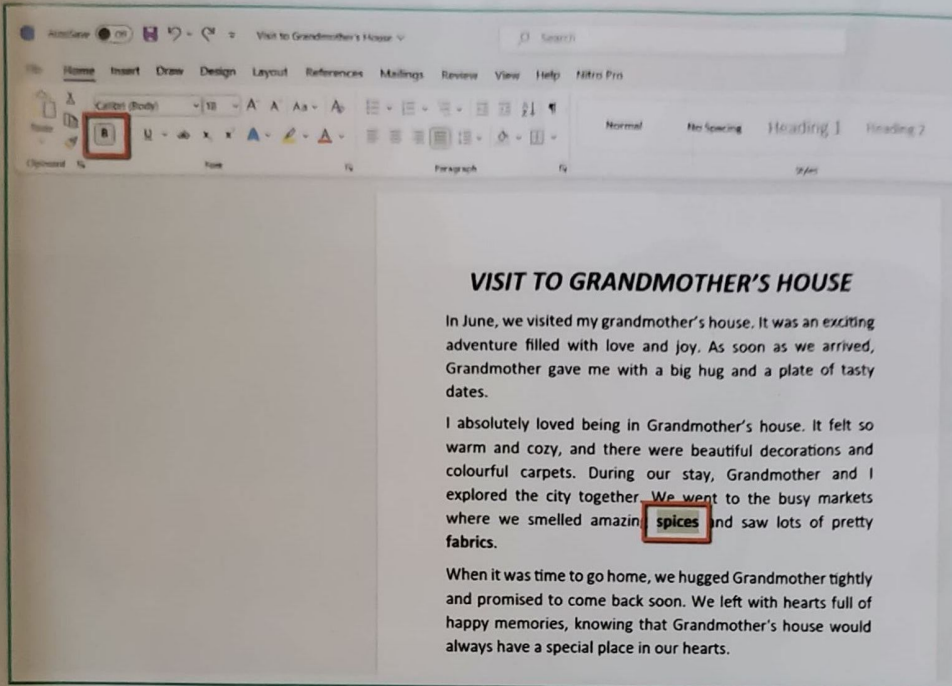

Tech Flash

1. **Word** : It is a software that allows us to create documents. We can add pictures and colours to it. We can make test papers and do our homework.
2. **Font** : It is a used to change the size of text. It is also used to apply the bold and italic effect.
3. **Paragraph** : It is used to align the text.

Activity 3

You can highlight the important things in your essay using bold or italics.

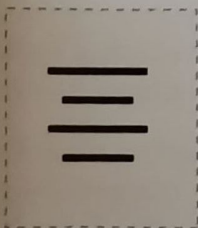

Do the same for all other important things in your document.

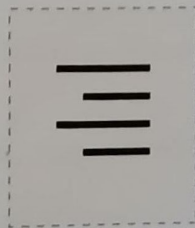

Exercise

Tick mark ☒ the correct answer

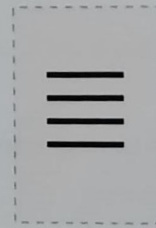

3 _____ is an easy way to make the text look properly aligned.

a. Centre Align ☐

b. Right Align ☐

c. Justify ☐

Activity 2

Justify is used to make the text look properly aligned.

VISIT TO GRANDMOTHER'S HOUSE

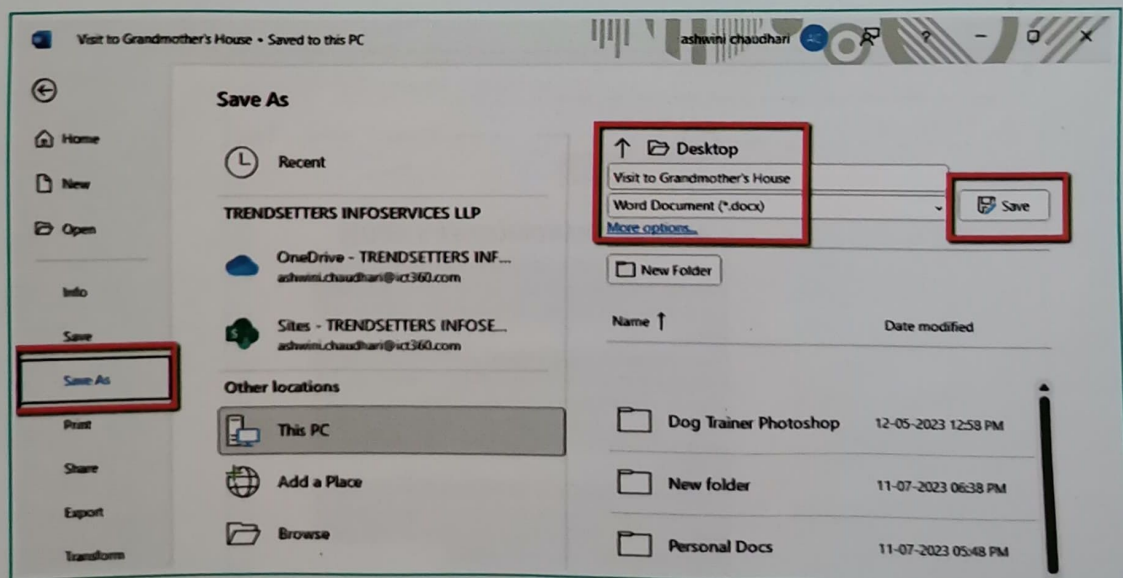

In June, we visited my grandmother's house. It was an exciting adventure filled with love and joy. As soon as we arrived, Grandmother gave me with a big hug and a plate of tasty dates.

I absolutely loved being in Grandmother's house. It felt so warm and cozy, and there were beautiful decorations and colourful carpets. During our stay, Grandmother and I explored the city together. We went to the busy markets where we smelled amazing **spices** and saw lots of pretty fabrics.

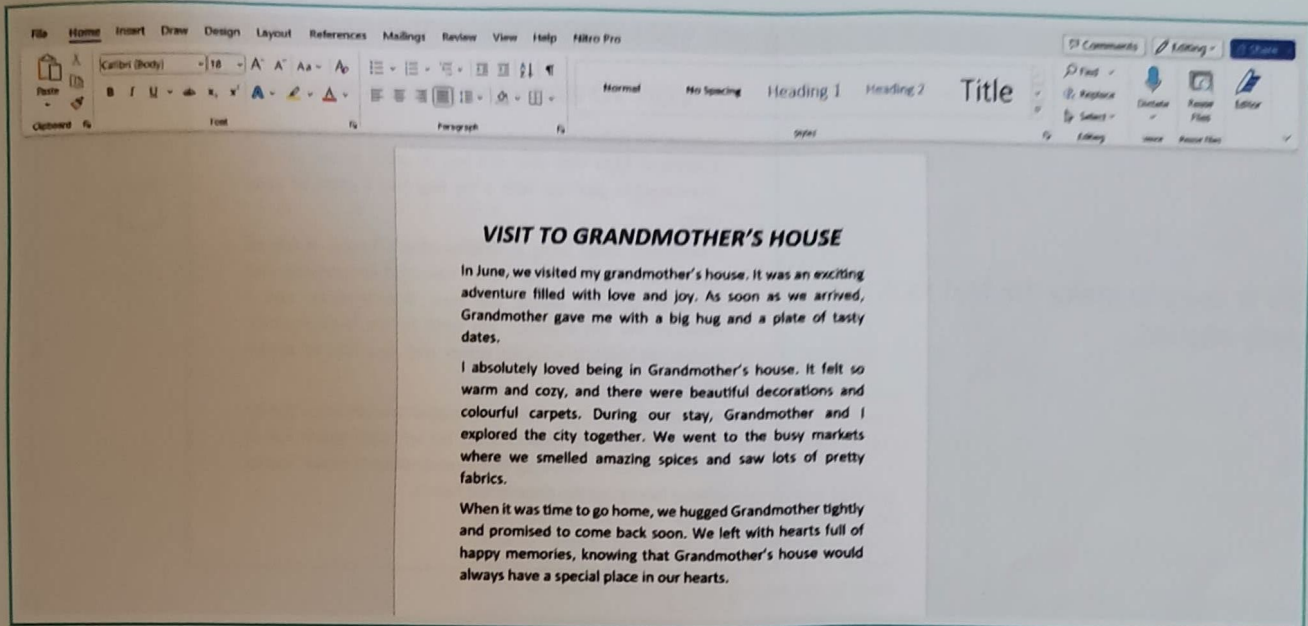

When it was time to go home, we hugged Grandmother tightly and promised to come back soon. We left with hearts full of happy memories, knowing that Grandmother's house would always have a special place in our hearts.

3 Save the essay on the computer with the name 'Visit to Grandmother's House'.

- Click on file
- Click on **Save As**

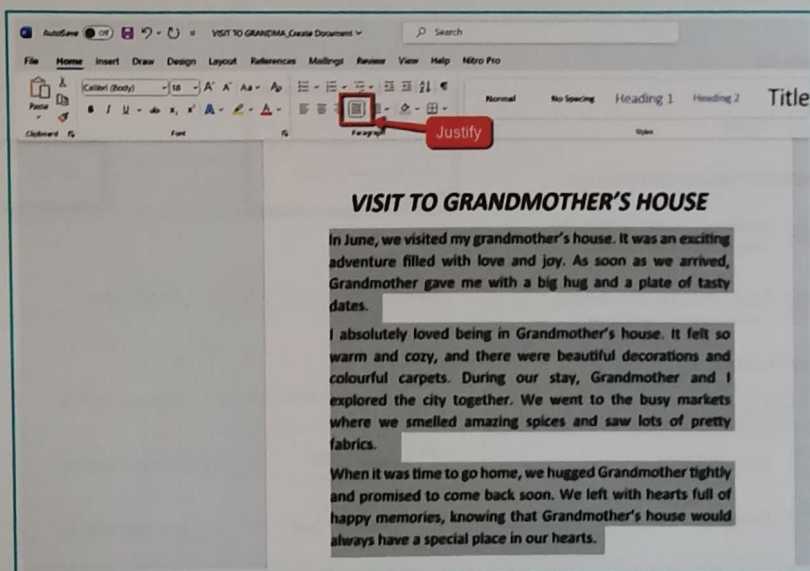

Activity 2

2 Make the text in the story look neat:

- Select text
- Click on **Justify**

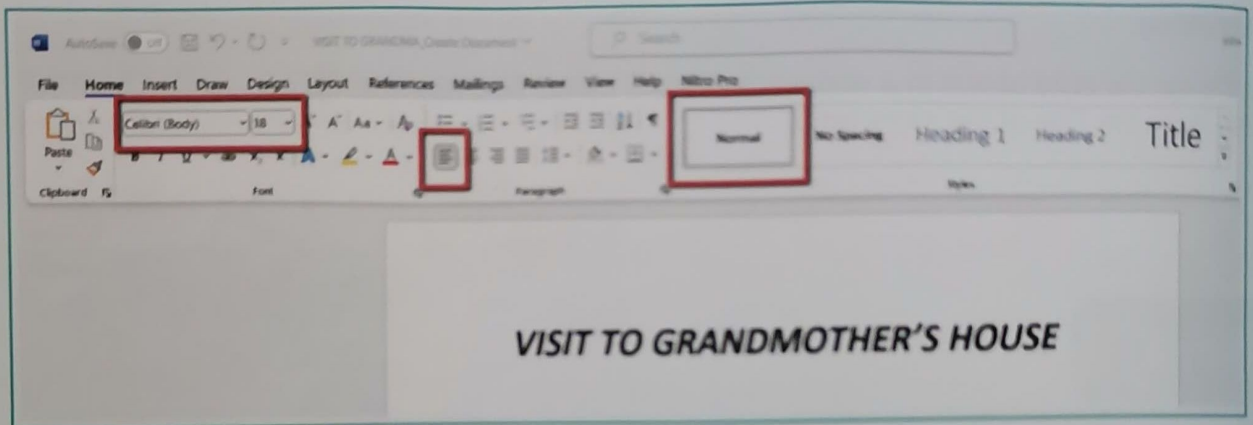

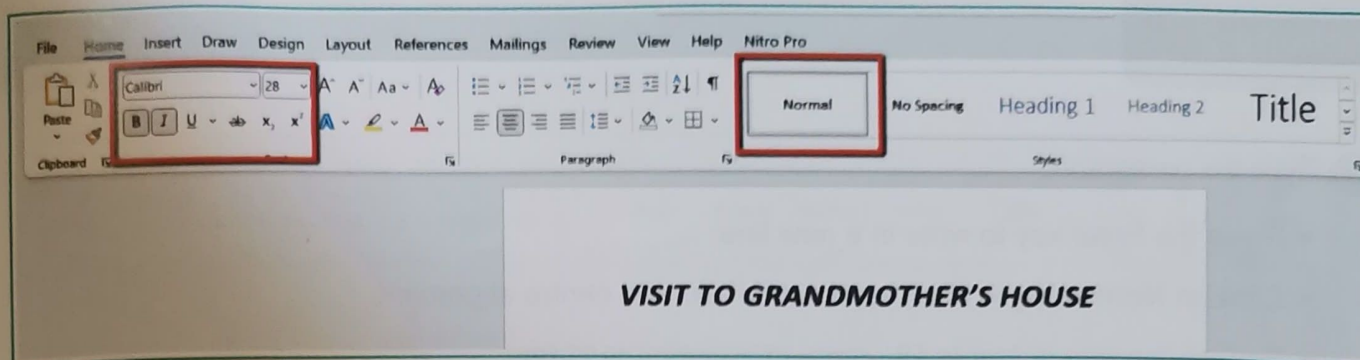

Justification of Text

Activity 2

1 Type the paragraph:

- Press the Enter key to write in a new line.
- Click on **Normal style** to remove bold, italic and centre alignment.
- Reduce the size of text to **18**.

Text Formatting:

We can change the style of text in a document. This is called Text Formatting.
Example: Make the Title of the story **bold**.

Activity 2

Write your essay under the title.

In June, we visited my grandmother's house. It was an exciting adventure filled with love and joy. As soon as we arrived, Grandmother gave me with a big hug and a plate of tasty dates.

I absolutely loved being in Grandmother's house. It felt so warm and cozy, and there were beautiful decorations and colourful carpets. During our stay, Grandmother and I explored the city together. We went to the busy markets where we smelled amazing spices and saw lots of pretty fabrics.

When it was time to go home, we hugged Grandmother tightly and promised to come back soon. We left with hearts full of happy memories, knowing that Grandmother's house would always have a special place in our hearts.

5. Create Documents

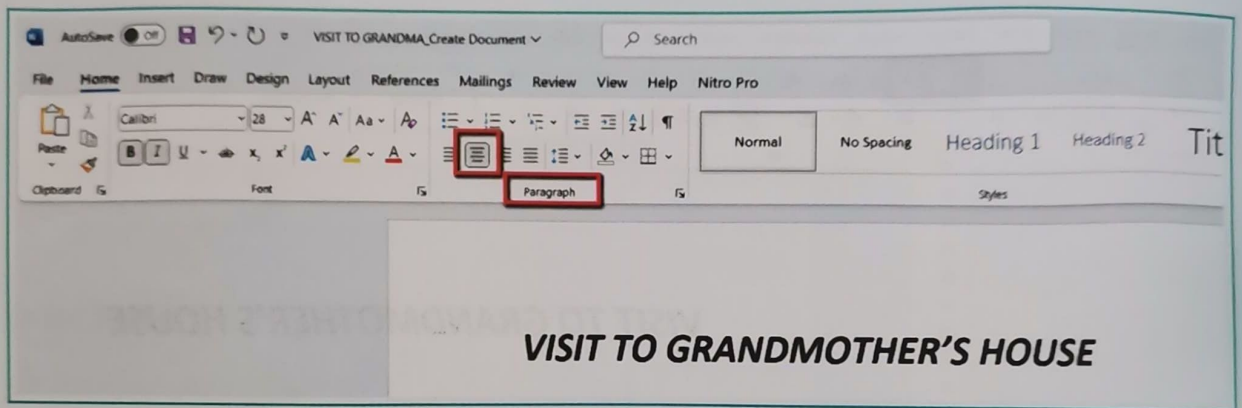

Activity 1

To move the text:

We can move the text in the document to the left, right or the centre.

To place the title in the centre:

- In the **Paragraph** option select **Center Text**.

Exercise

Tick mark ☒ the correct answer

1 Which option allows us to move the position of the text?

a. Text alignment ☐

b. Bold ☐

c. Italic ☐

2 How do we highlight the text in a document?

a. Bold ☐

b. Centre Alignment ☐

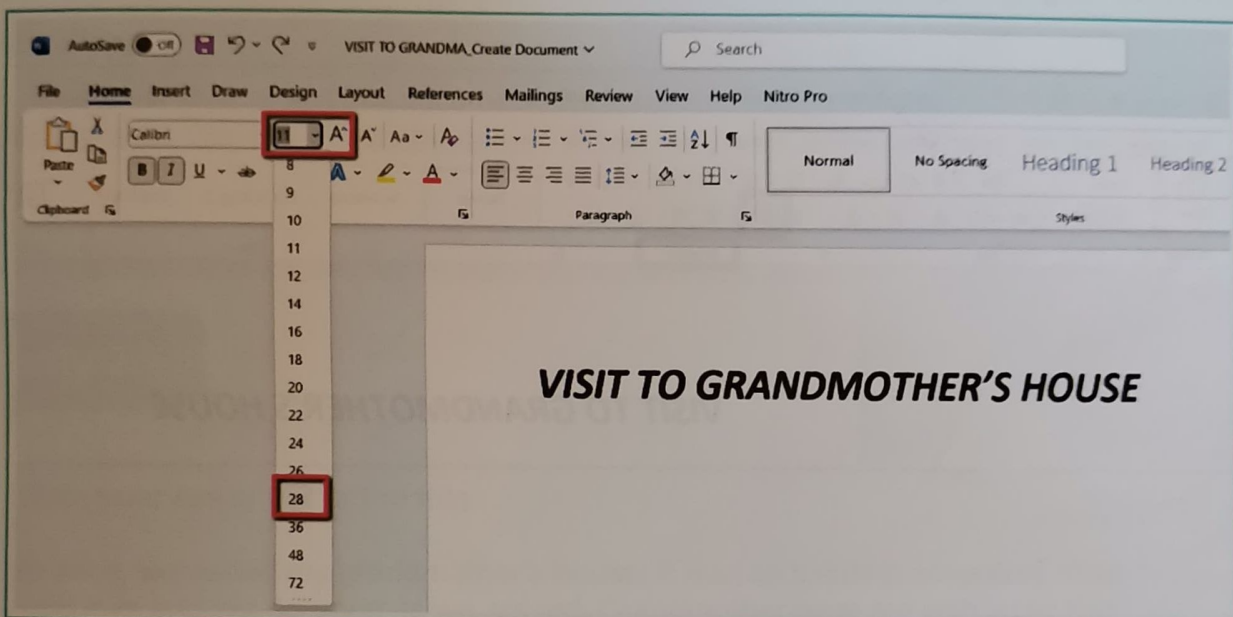

c. Left Alignment ☐

Activity 1

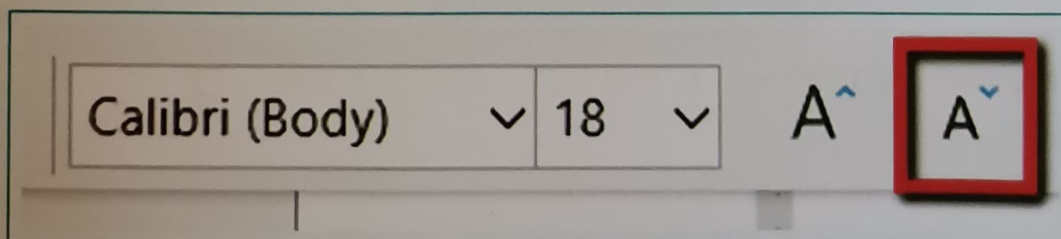

Increase the size of text:

We can make the size of the title bigger to make it easy to read.

- In the **font** option click on **Font size** or **big A** to increase the text size.
- Increase the text size to **28**.

- The **small A** with a downward arrow is used to reduce the size of the text.

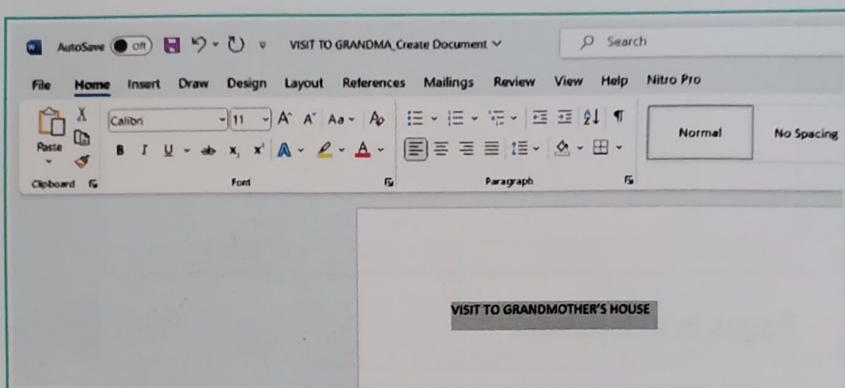

5. Create Documents

Activity 1

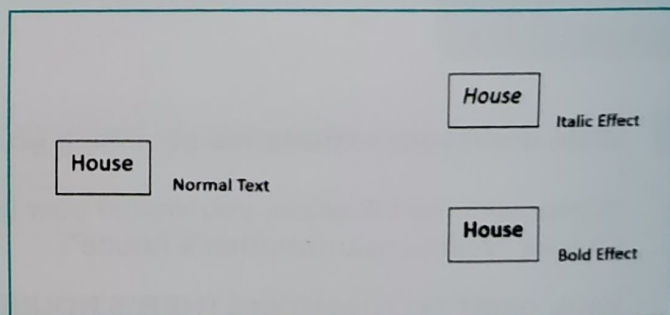

Highlight the title of the essay:

1 Select the text

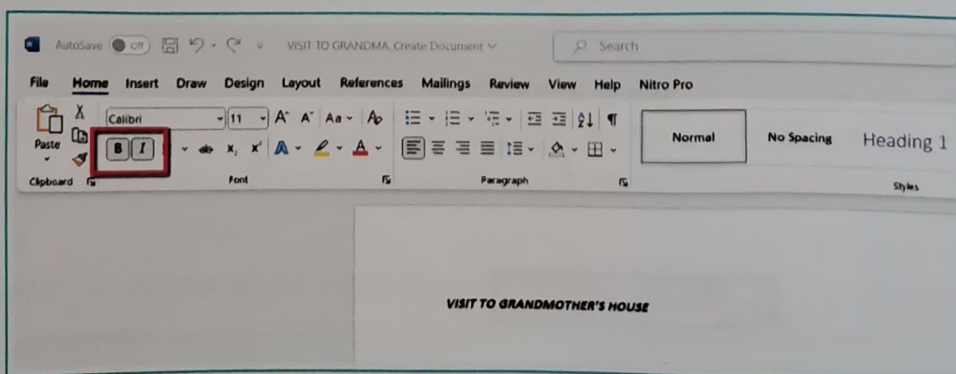

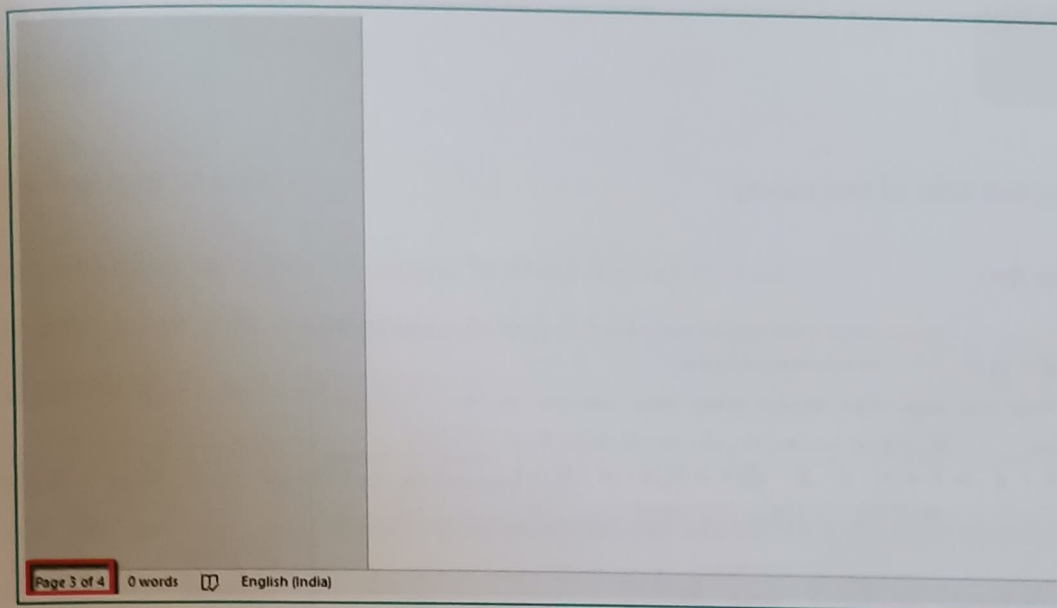

2 In the **font** option select **B** and *I*

- **B** – stands for Bold. After you click on the B, the text will become thick.
- *I* – stands for Italic. After you click on the I, the text will slant to the right side.

Bold and Italic styles are used to highlight words in a document. We use these if we want the readers to pay extra attention to something specific. They can be used together or separately.

Pages in a document

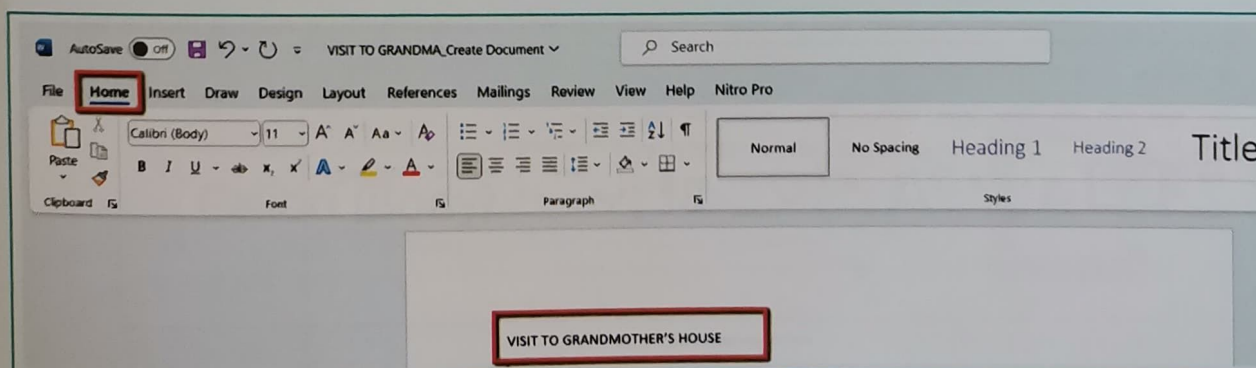

Activity 1

Write down your experience of visiting grandmother's house.

In your summer vacation, you visited your grandmother's house. Write an essay on your "Visit to grandmother's house".

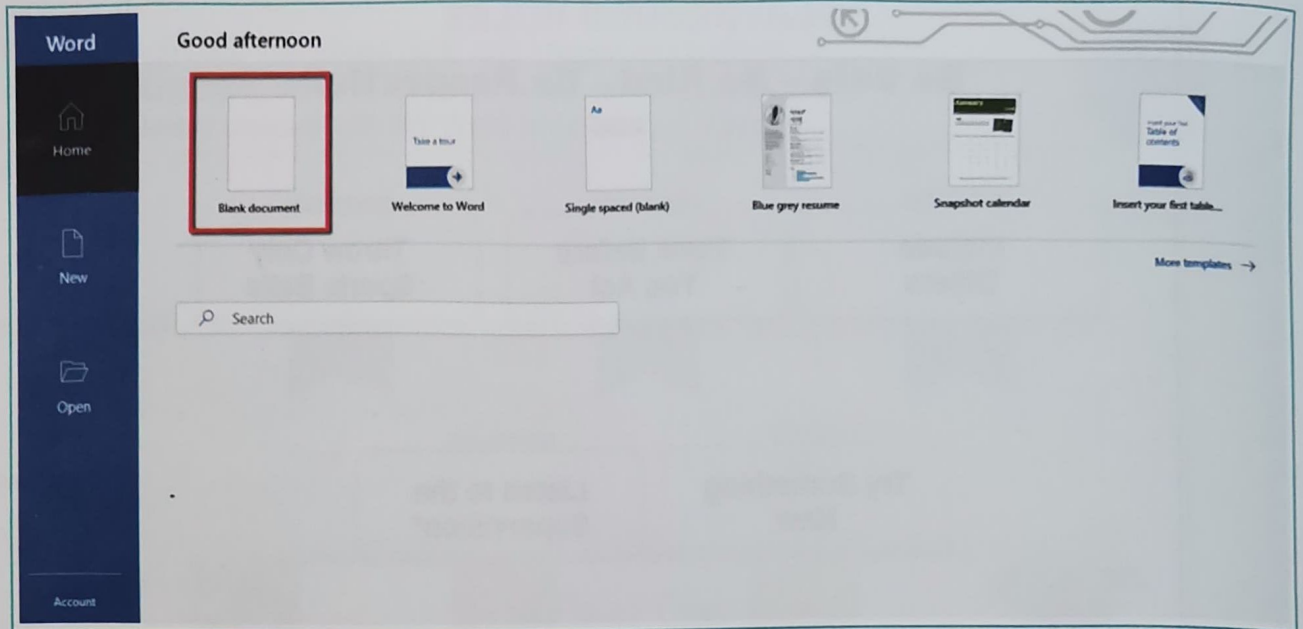

Write **"VISIT TO GRANDMOTHER'S HOUSE"** at the top of the page. This is the title of your essay.

- The title of the essay should be highlighted. The reader should be able to see it easily.

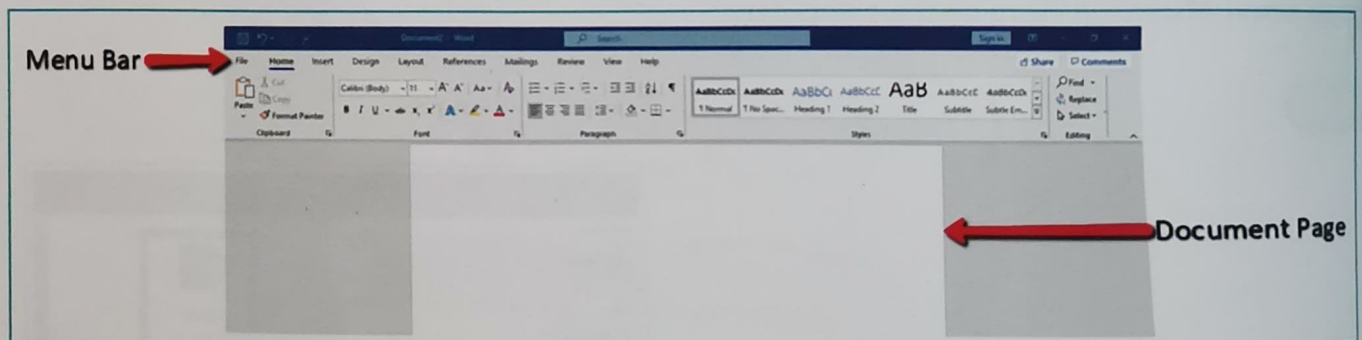

5. Create Documents

- 2 To create a new document, click on **Blank document**.

Open the blank document

A document has different parts:

parts of a Word Document

- **Menu Bar:** The Menu bar has options like File, Home, Insert and Design.
- **Document Page:** This is the blank space where we can add information.

A document can have multiple pages like a notebook. We can see the number of pages in the bottom left corner.

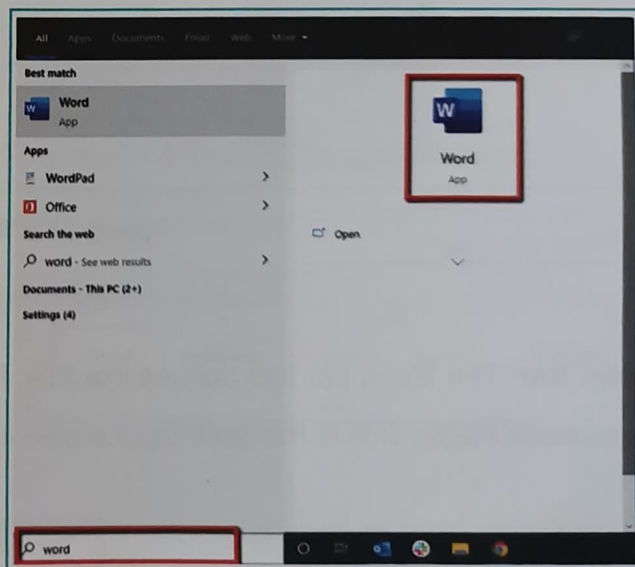

A Poster

Steps to open Microsoft Word on the computer:

Steps

- 1 Type Word in the search bar. Click on the Word icon. It looks like this:

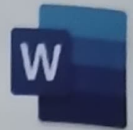

Type in search bar

5. Create Documents

MS Word

MS Word is a software that allows us to add images and change text style in a document. We can also add tables, colours, and shapes. A document created with MS Word is called as a Word Document.

Word

- MS Word is used for creating posters, letters, test papers, and many other documents.

Create Documents

I really enjoyed our trip to the village last week. I saw grandma's farm for the first time.

Sure, Papa.

I know! Why don't you write about your experience?

Write about it on your laptop.

Recall:

Document:

A document is a file that contains information. This can be text, numbers and images.

We use the Notepad software to create a document. But we cannot add images or change the text style in Notepad.
