

A Digital Notepad

Miss, I wrote a poem!

Thank you. But I made a few mistakes, so it looks untidy.

Oh, how nice!

I know. It is difficult to correct mistakes on paper, especially when we write with ink. On computer you can correct mistakes easily. And it will look tidy and clean.

Benefits of typing on a computer:

- We can easily correct mistakes.
- We can easily repeat words or sentences. We do not have to type it again.
- We can add new words and sentences later at any time.
- We can share documents anywhere around the world

Notepad:

Notepad is a software that we can use to create documents on a computer.

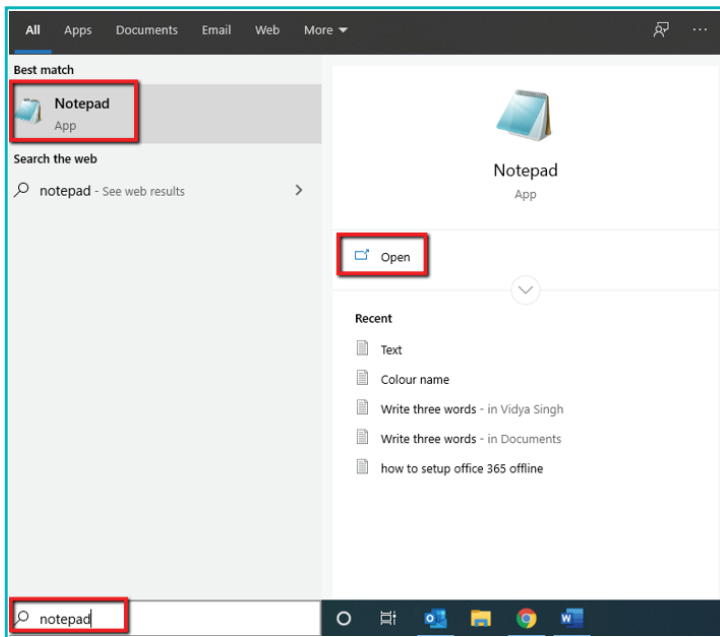

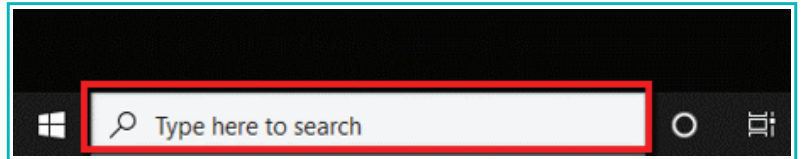

Bytes

Document: A document is a file which contains information (text, numbers, images).
