

Student's Name		Grade	8
Subject	Computer science	worksheet	1

Q1: choose the correct answer:

1-A Gigabyte contains _____ Megabytes:			
1024	2000	2024	2500
2-The volatile memory :			
Rom	Ram	cache	Dos
3- The smallest unit to represent data can be stored in computer is called ____			
Byte	Software	Information	Bit
4-A Single in-line Memory Module (SIMM) has _____ pins:			
52	62	72	82

Q2 : Read and put True(✓) or false (✗) :

- 1) ROM is non-volatile memory. (✓)
- 2) 1 Kilobyte = 1000 Bytes. (✗)

Q3 : What is the difference between RAM and ROM ?

Ram is volatile memory (Random Access Memory)
Rom is non-volatile memory (Read Only Memory)
