Q1: choose the correct answer:

1. What is the primary purpose of animating game objects?

- A) To increase the game's file size
- B) To make objects static and unchanging
- C) To create movement and bring objects to life
- D) To remove interactivity from the game

Answer: C) To create movement and bring objects to life

2. Which of the following is a common technique for 2D animation in games?

- A) Rigidbody physics
- B) Sprite sheets
- C) Mesh deformation
- D) Raycasting

Answer: B) Sprite sheets

3. In Unity, what component is used to control animations for a game object?

- A) Collider
- B) Animator
- C) Rigidbody
- D) Renderer

Answer: B) Animator

Q1: choose the correct answer:

1- Which file format is commonly used for skeletal animations in 3D games?

- A) .PNG
- B) .FBX
- C) .MP3
- D) .TXT

Answer: B) .FBX

2- Which of the following is NOT a common animation blending technique?

- A) Linear blending
- B) Additive blending
- C) Multiplicative blending
- D) Overwrite blending

Answer: C) Multiplicative blending

Short Answer Questions:

1. What is the purpose of an Animator Controller in Unity?

Answer: The Animator Controller manages animation states and transitions using a state machine, controlling which animations play under specific conditions.

2. What is a keyframe in animation?

Answer: A keyframe defines the start or end point of a smooth transition, storing an object's properties (position, rotation, scale) at a specific time.

Q1 : Read and put True(✓) or false (✗) :

1. Animation in games involves changing the position, rotation, or scale of objects over time.
○ Answer: True
2. Keyframes are used in animation to define the start and end points of an object's movement.
○ Answer: True
3. In Unity, the Animator component is not required to play animations on a GameObject.
○ Answer: False
4. Sprite sheets are used only for 3D model animations, not 2D animations.
○ Answer: False
5. Inverse Kinematics (IK) is a technique used to make character animations more realistic by adjusting limb positions based on the environment.
○ Answer: True
