

Page Design: Let's Make a Comic Book!

Grade 3 – Computer Science
Workshop

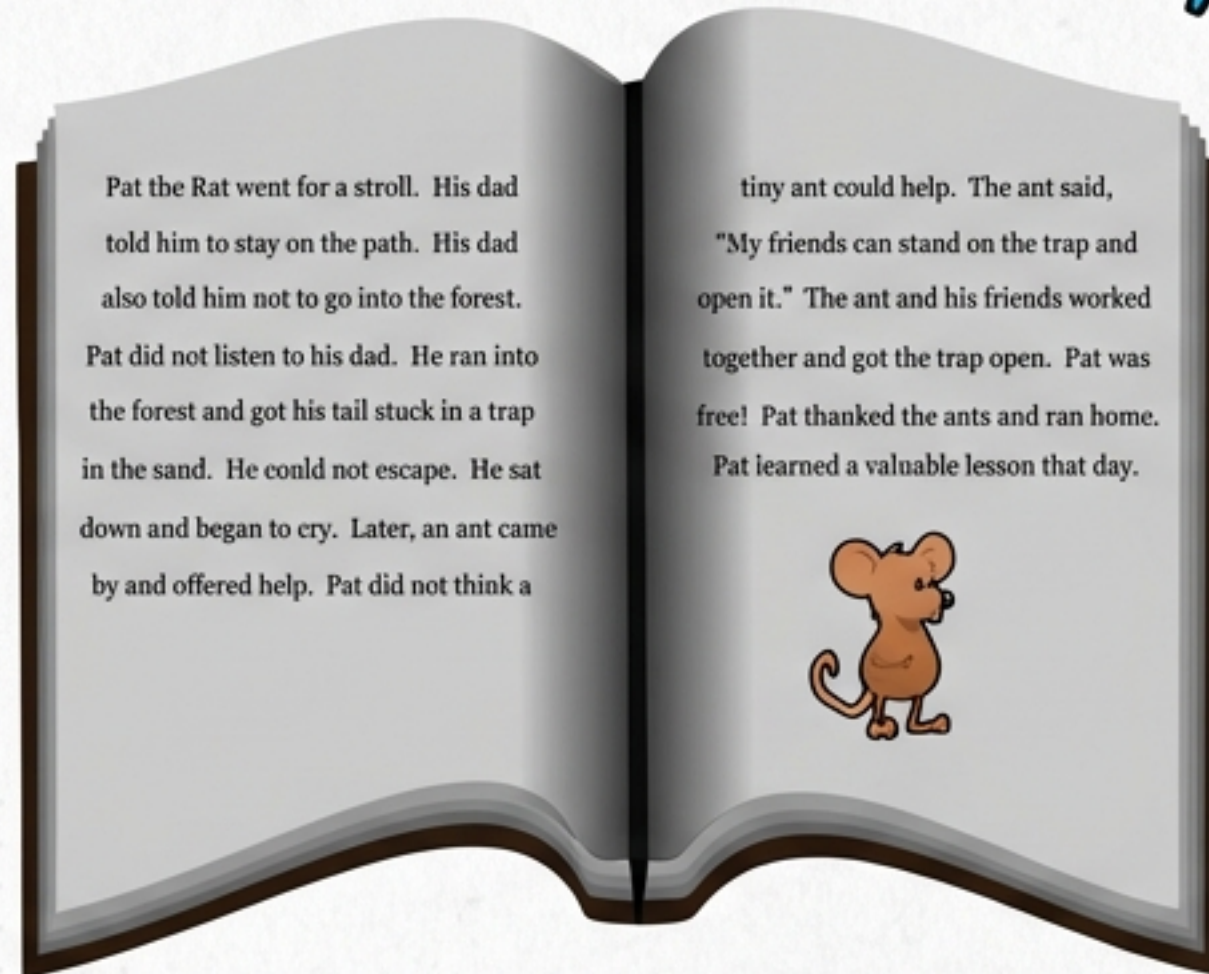

Hey there! You love reading
comics. Today, we are going to
BUILD one using MS Word!

Mission:
Tell the
story of
Makdoo &
Saloni!

Storybooks vs. Comic Books

Storybook

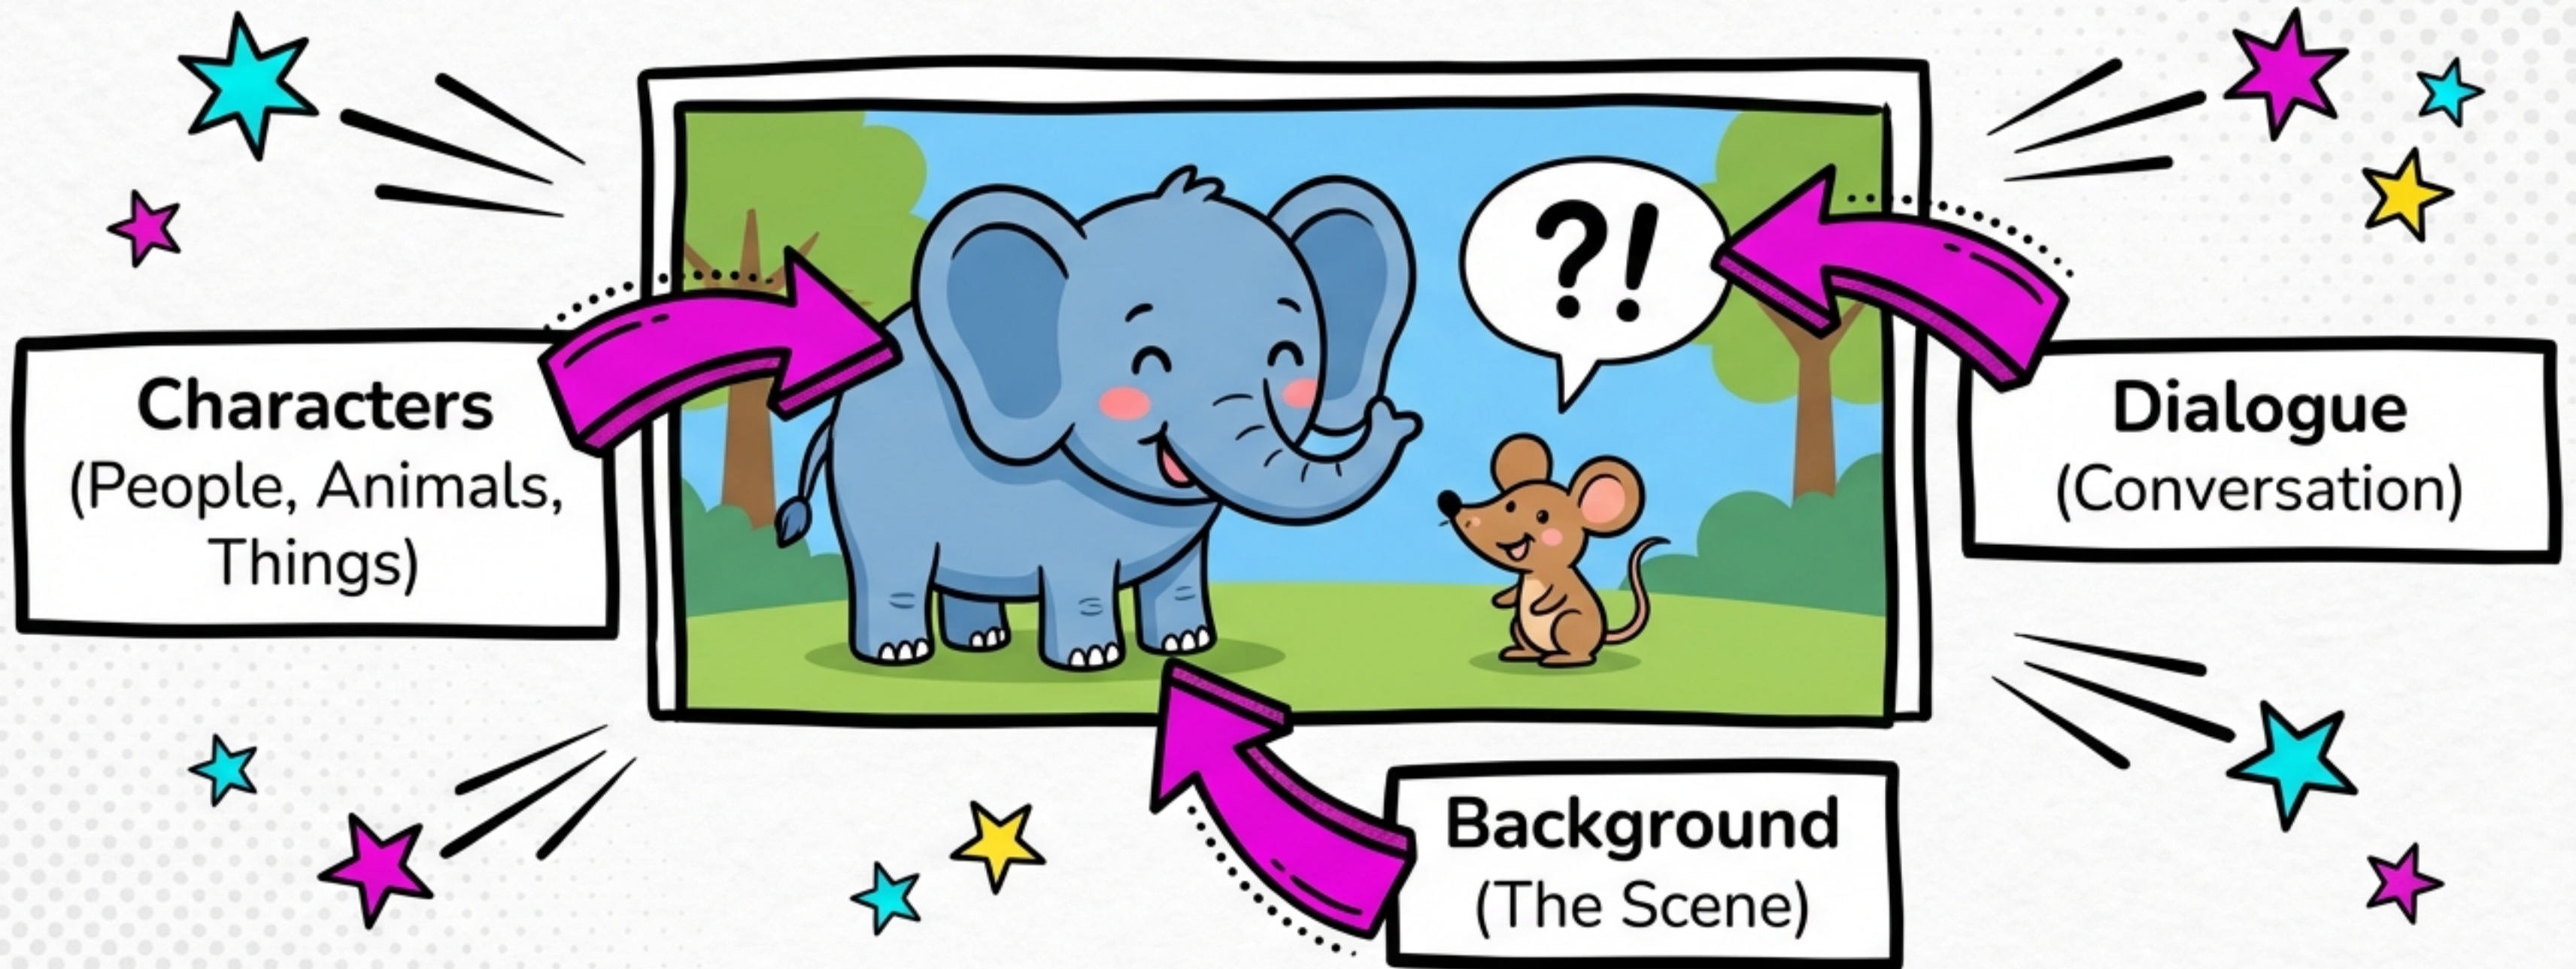

Tells a story with sentences and paragraphs. The main character is the "Lead".

Comic Book

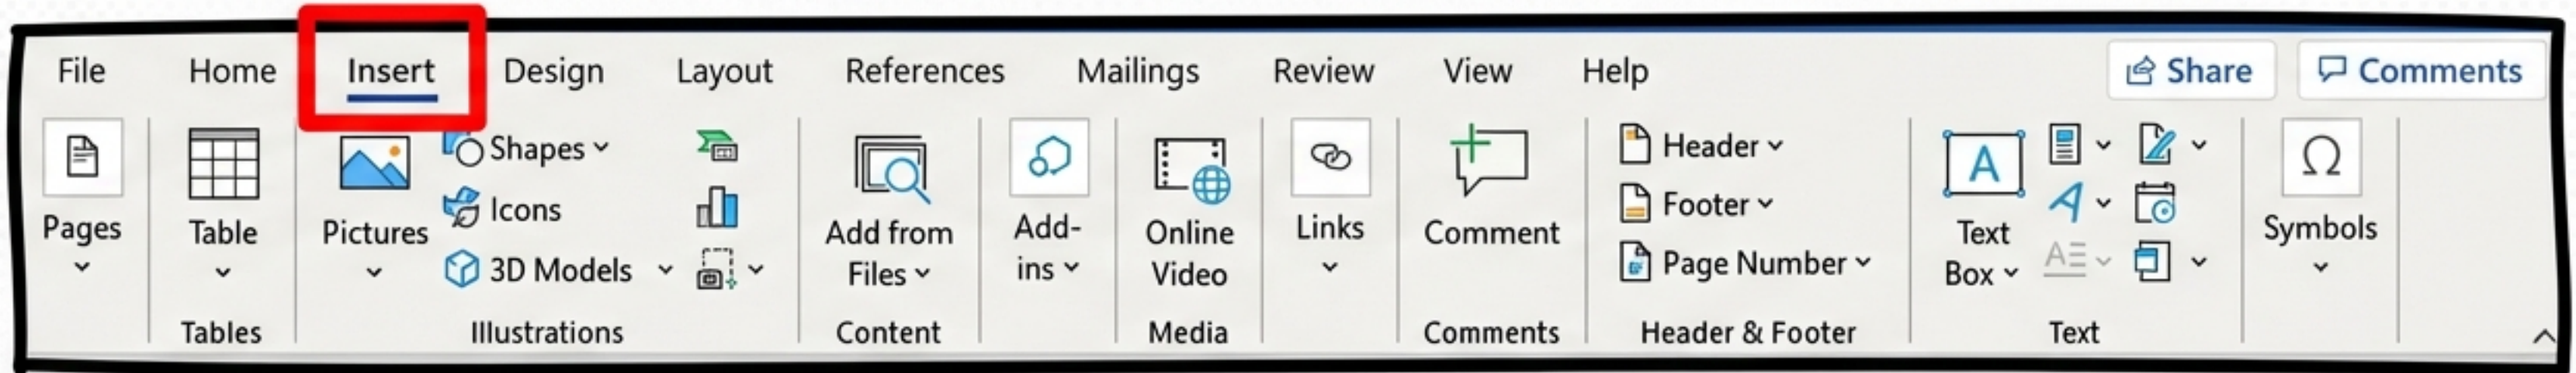

Tells a story with pictures and scenes. Uses "Comic Strips" and speech bubbles.

The 3 Ingredients of a Comic

We will mix these ingredients in our Creative Studio: MS Word!

Open Your Creative Studio

**Pictures &
Clip Art**

WordArt

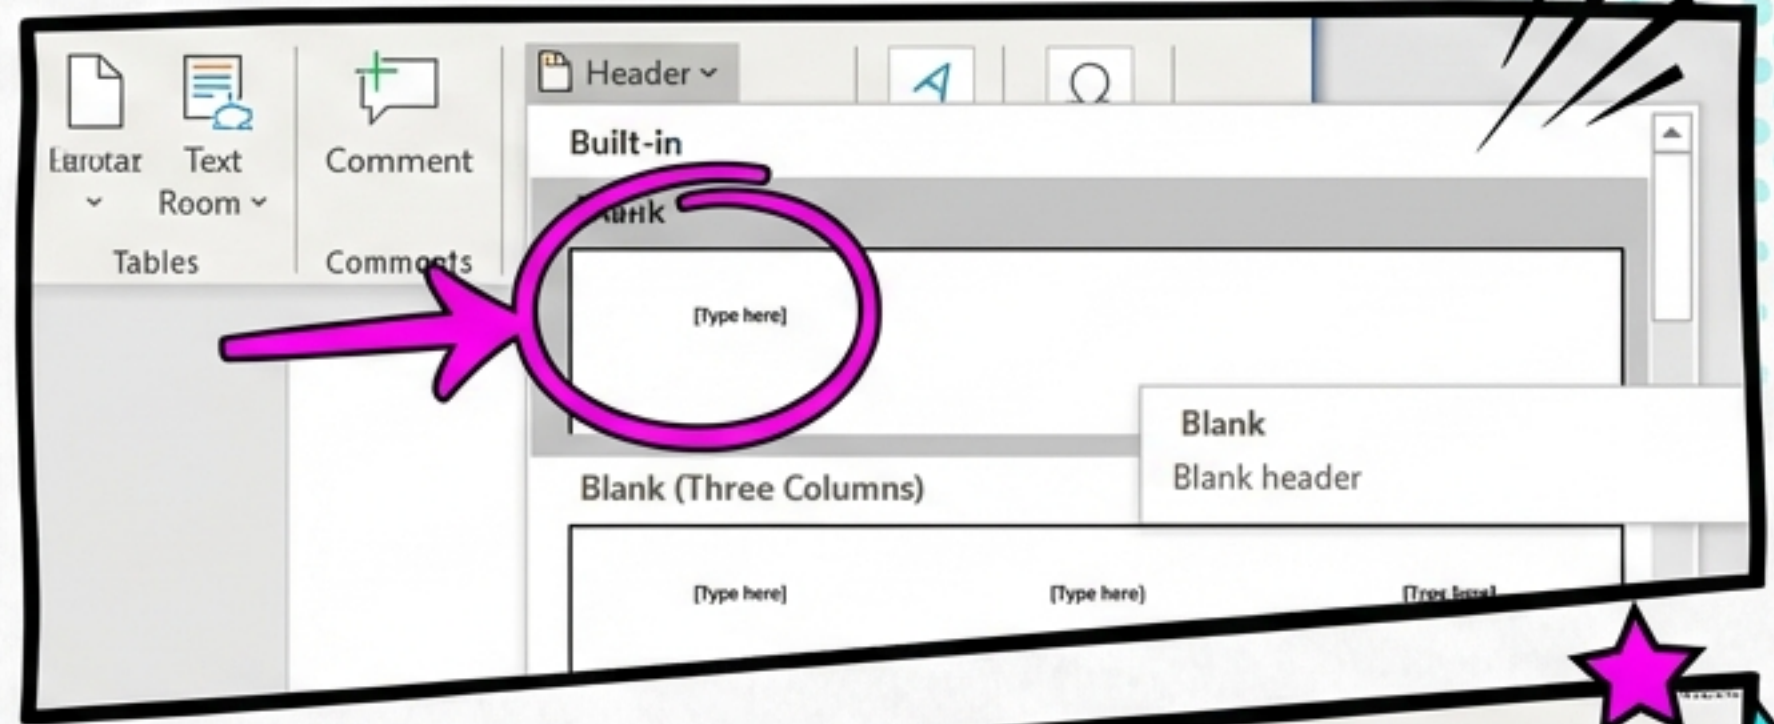

**Header &
Footer**

The Insert Tab is your magic button to add all these cool things!

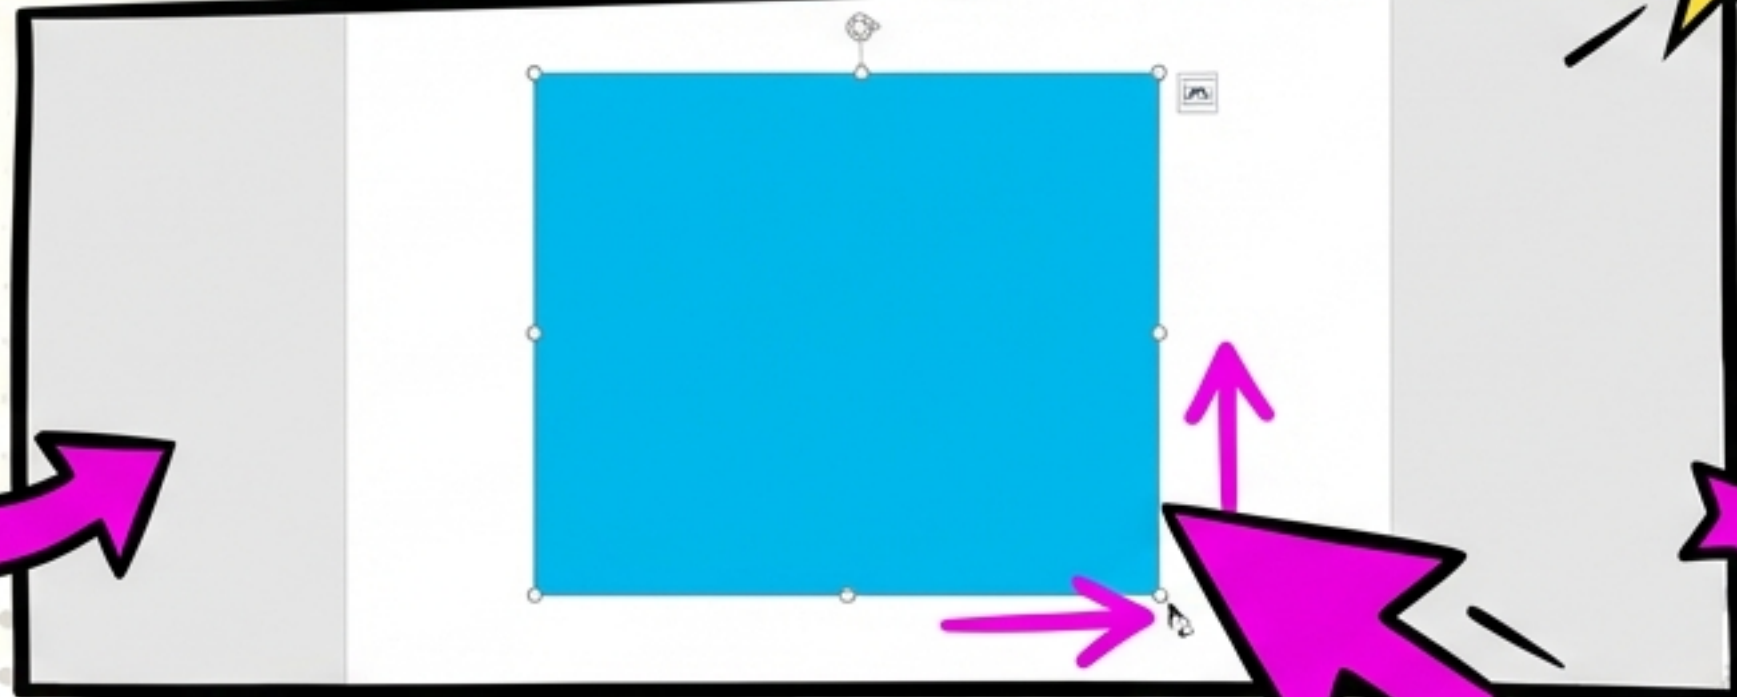

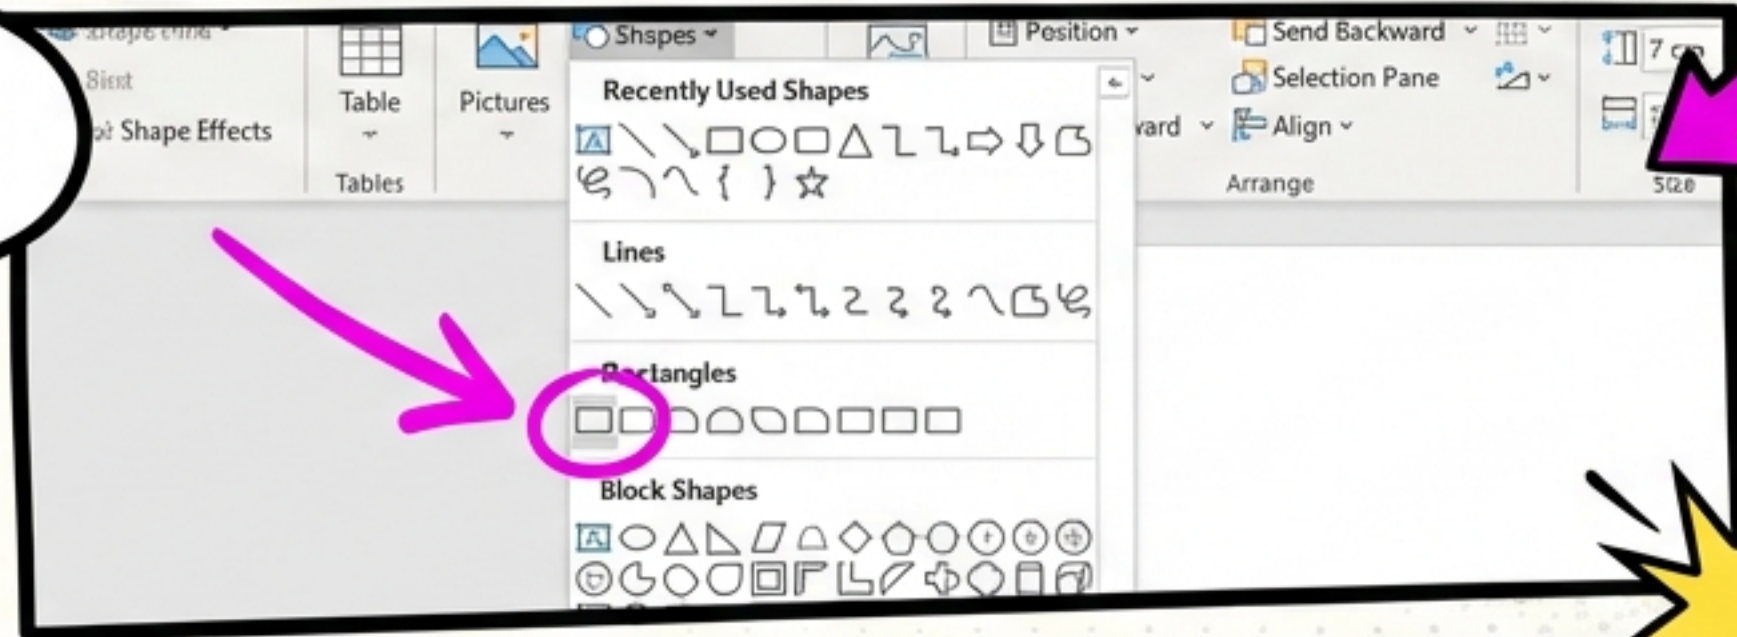

Step 1: Give Your Story a Title

1. Go to Insert > Header > Blank.
2. Select 'WordArt' to make it fancy.
3. Type the title: 'BEST FRIEND'.

Step 2: Set the Scene (Background)

1. Go to Insert > Shapes > Rectangle.
2. Click and drag to draw a big box.
3. Use 'Shape Fill' to color it blue for the sky!

Step 3: Find Your Actors (Safely!)

1. Go to Insert > Online Pictures.

2. Search for: "Crane bird clip art" or "Frog clip art".

3. Pick a picture of Saloni the Crane!

Always check this box!
It means the pictures
are free to use.

Step 4: The Magic Trick (Text Wrapping)

Step 5: Make Them Talk!

1. Go to Insert > Shapes > Callouts.
2. Draw the bubble next to Saloni.
3. Type her dialogue inside.
4. Use 'Shape Fill' to make the bubble yellow or white.

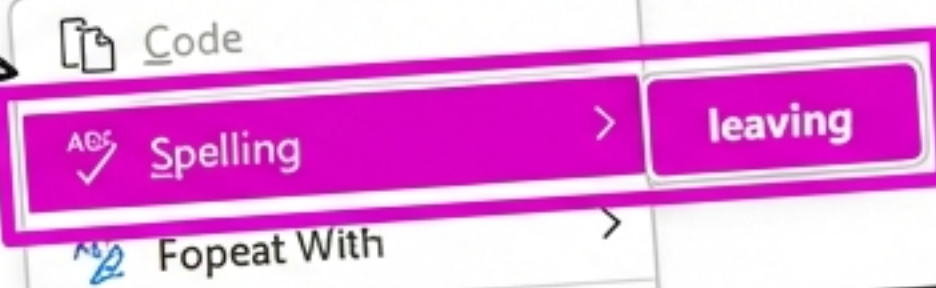

Makdoo, I am leaving! I will be back in a few months.

Step 6: Polish Your Work
