

This is nice Ali, but you can make it look even better with different text styles and pictures.

Let me show you how.

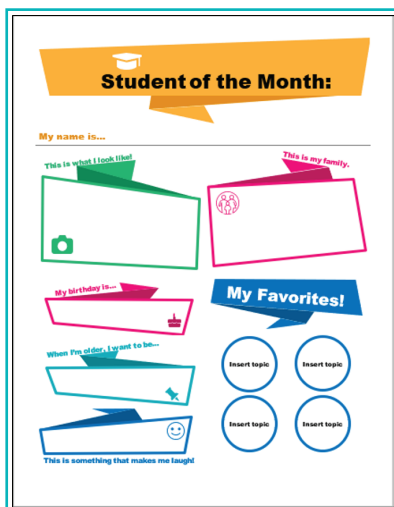

Mom, look at this poster on Good Habits I made for my class. I used MS word.

How can I do that?

Microsoft Word lets us add pictures and change text style in a document. It is used to create posters, letters, test papers, and many other documents.

Example :

A poster

A certificate

- We can edit and format text and add pictures easily in **MS Word**.

When we **Edit Text** we add, delete and rearrange letters, words, sentences, and paragraphs.

When we **Format Text**, we change the font style, size, and alignment. This helps to get the reader's attention. It also helps to highlight important points.

Pictures in a document help us to grab attention and can convey a message quickly.

Activity

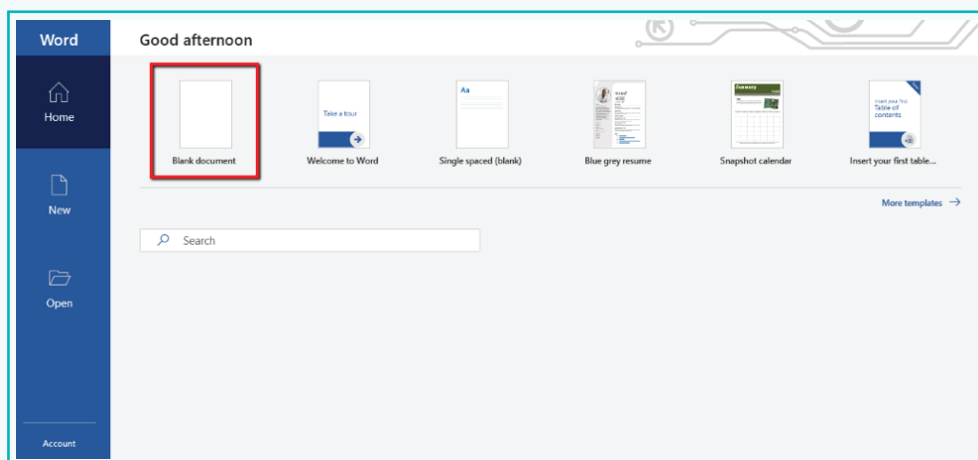

Create a poster

Example:

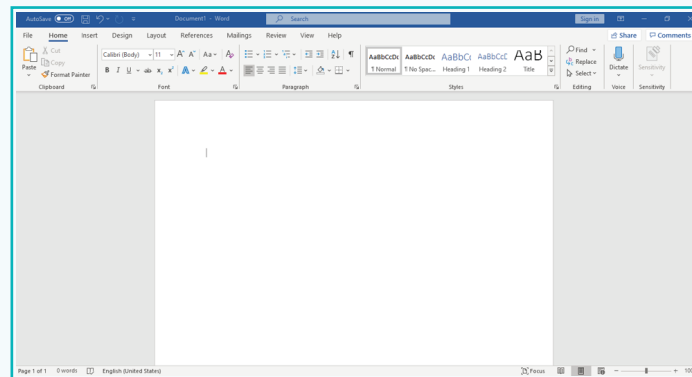

Poster on Good Habits created in MS Word

1 Open a **Blank document** in **MS Word**

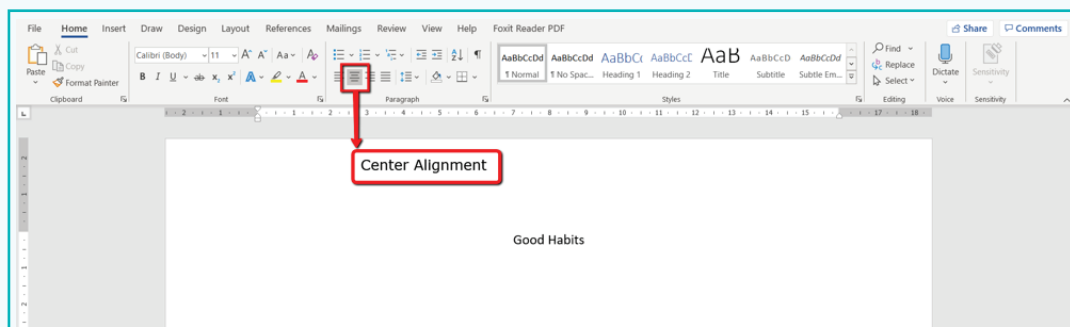

Open the blank document

Activity

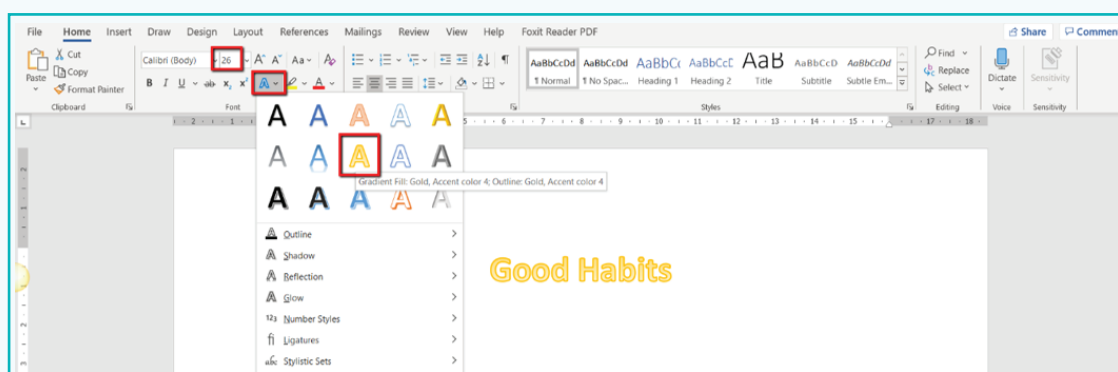

- 2 Add a heading for the poster, “**Good Habits**”.
 - Select the text and arrange it at the centre

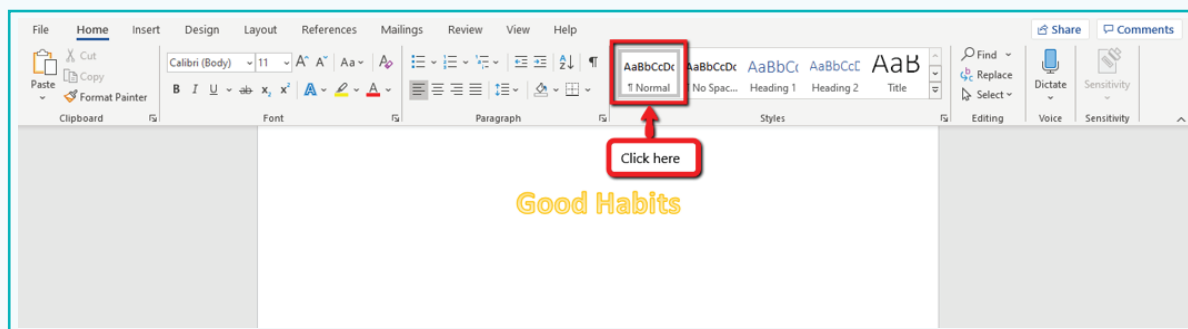

- 3 Format the text as shown below :
 - Click on and change the font size to **26**.
 - Click on and add a **text effect** as shown below.

Text effect is used to add style to text. This could be an outline, shadow, reflection or glow.

Activity

- 4 Select **Normal** in the Styles section to use normal text settings.

Exercise

State whether True or False

- 1 Text effect is used to add style to text such as outline, shadow, reflection or glow.

▲ _____

- 2 We can insert pictures in an MS Word document.

▲ _____

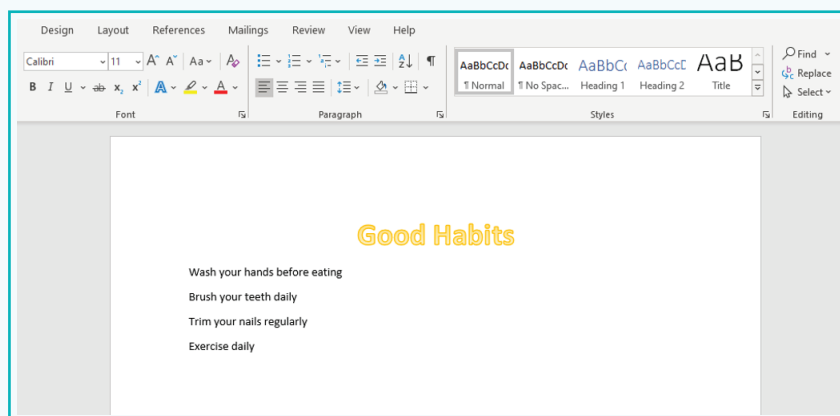

Activity

- 5 Write down these habits in the MS Word software one by one.

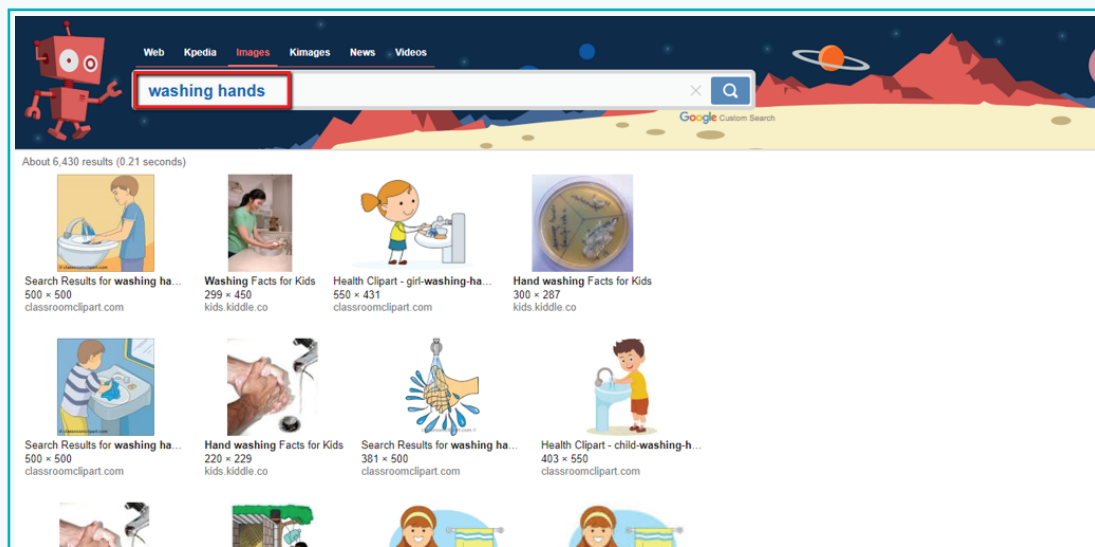

Some of the good habits that we can list are:

- | | |
|----------------------------------|------------------------------|
| 1. Wash your hands before eating | 3. Trim your nails regularly |
| 2. Brush your teeth daily | 4. Exercise daily |

Activity

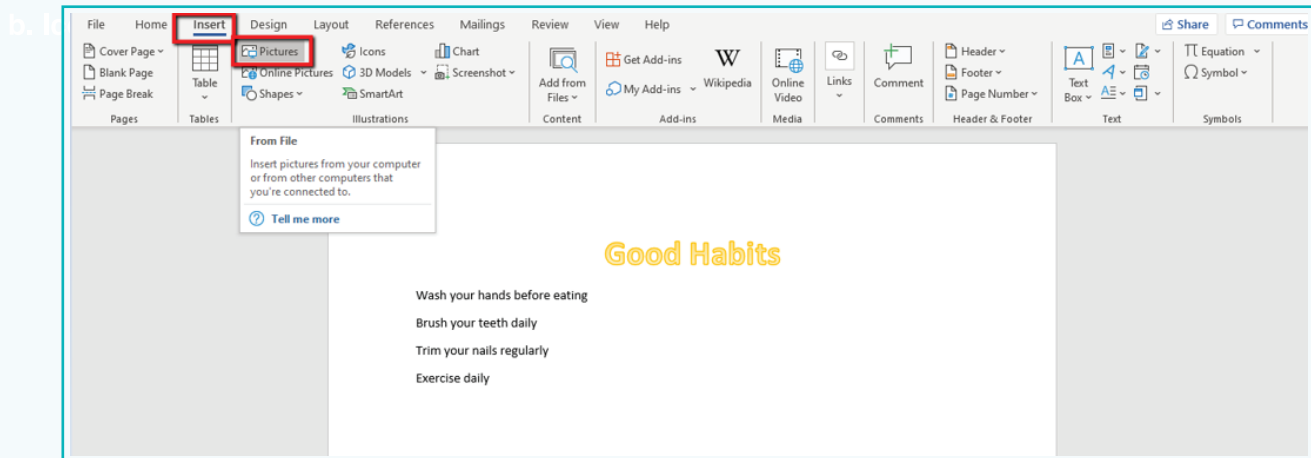

- 6 Search for an image of washing hands on **Kiddle**.

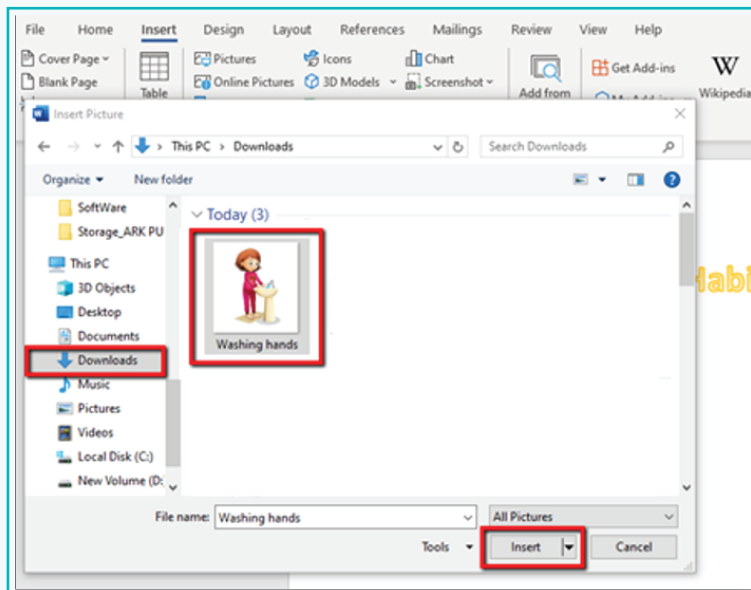

- **Select** any one picture you like and **download** it.

Activity

- To insert the picture of washing hands, click on **Insert** and then click on **Picture**.

- Select the picture from the **Downloads** folder and click on **Insert**.

Activity

- 8 To move the picture to its correct place
 - Drag the picture so that it is under the first habit.

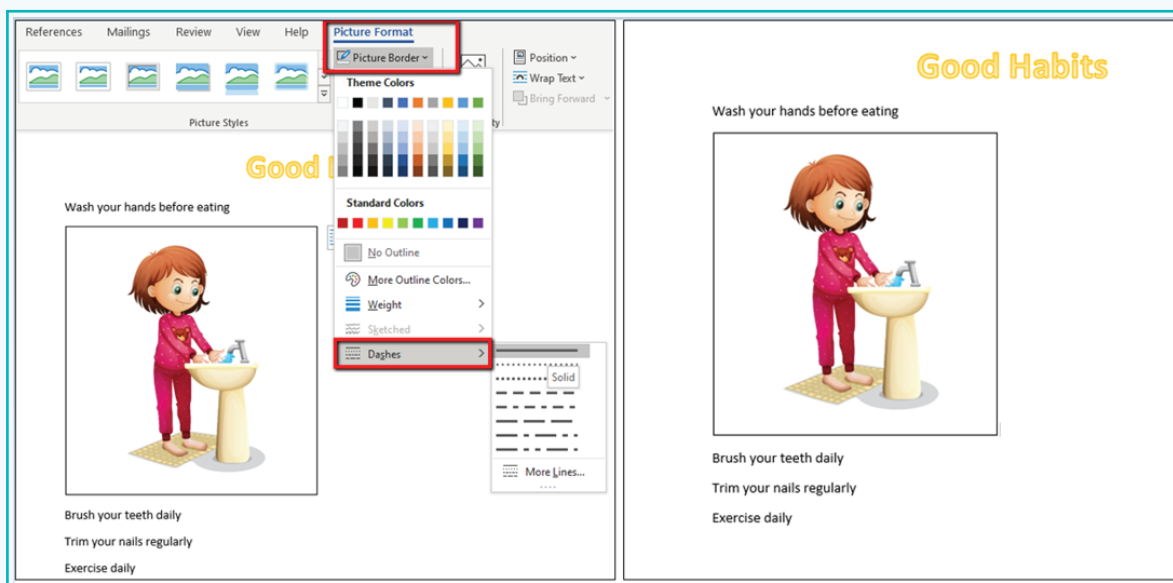

- 9 Press the Enter key after the first habit. Resize the picture.
 - A small arrow will appear
 - Drag the corner point towards the centre to reduce its size

Activity

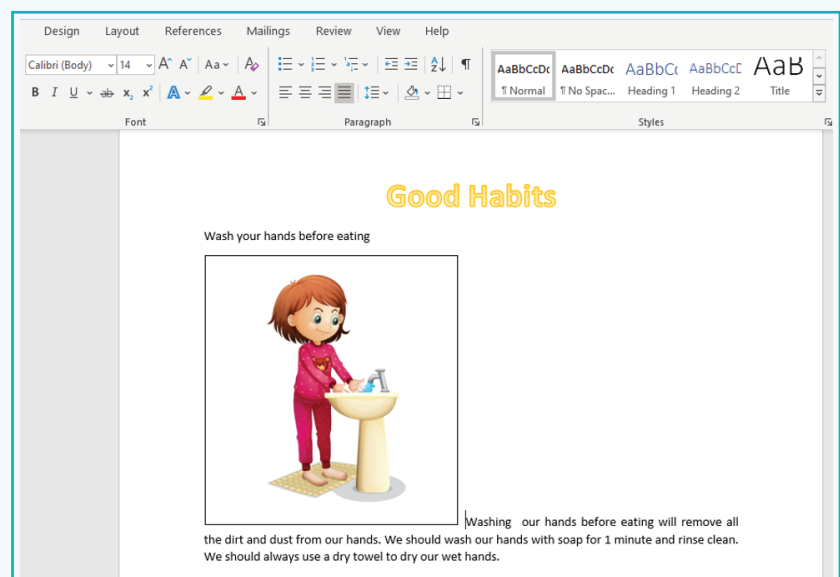

- 10 To add a border to the picture, first click on the picture
- A **Picture Format** menu will appear in the menu bar
 - Click on **Picture Border** and select **Dashes**
 - Select the **Solid line** option

- 11 Let us write about the advantages of washing hands.

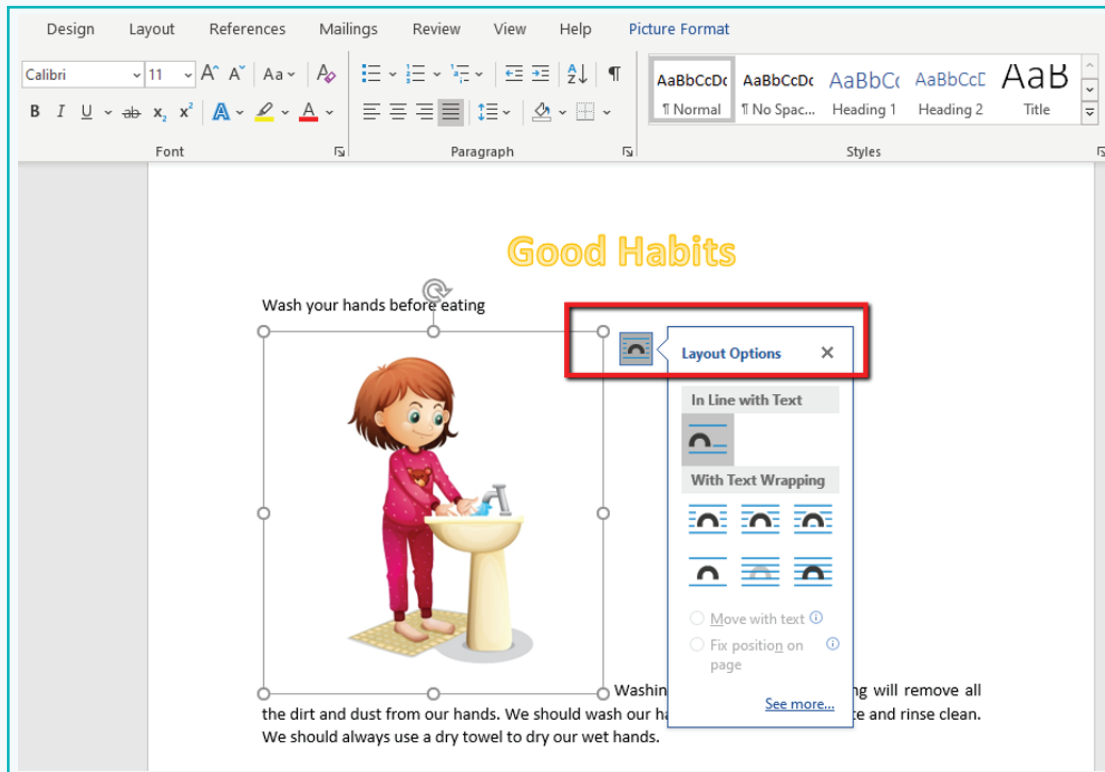

Example :

Washing our hands before eating will remove all the dirt and dust from our hands. We should wash our hands with soap for 1 minute and rinse clean. We should always use a dry towel to dry our wet hands.

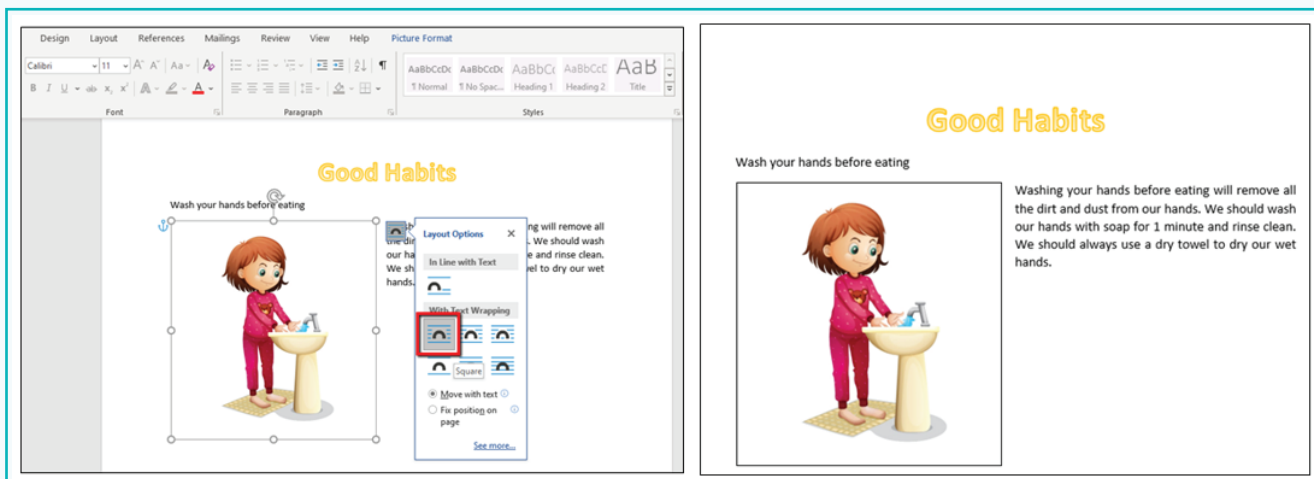

Activity

- 12 To arrange the picture and text properly
 - Select the picture and click on **Layout Options**.

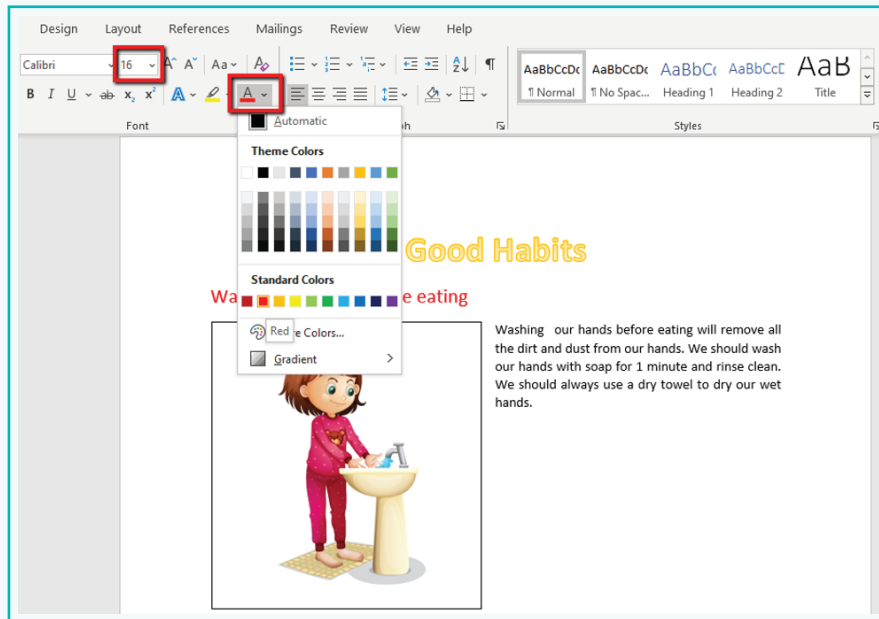

- Click on **Square Text Wrapping**. This will move the text to the right side of the picture.

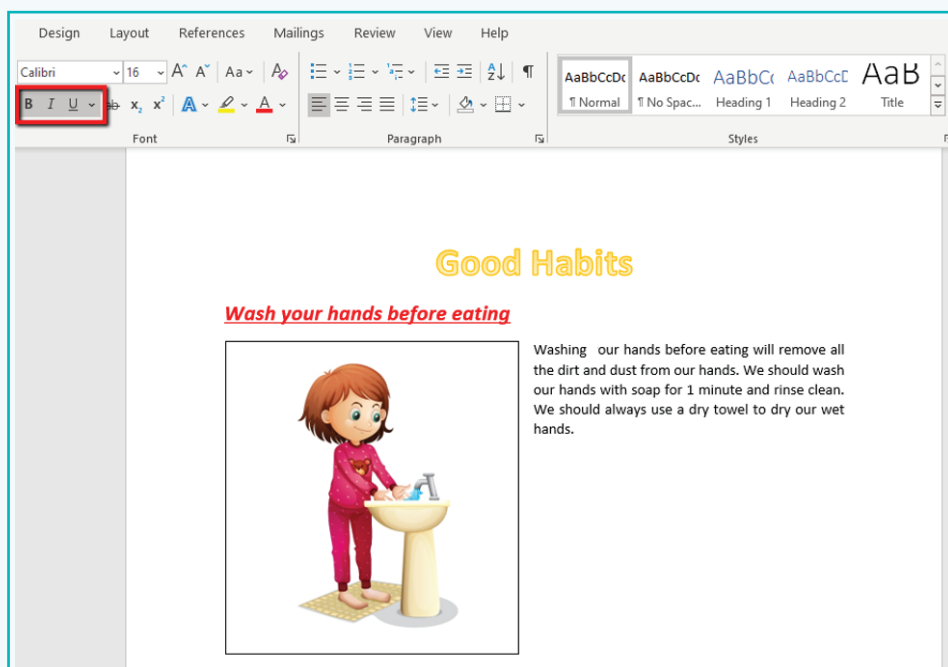

Activity

13 Edit the first heading.

- Change **Font Color** and **Size**

14 We can use other formatting options like **Bold**, **Italic**, and **Underline**.

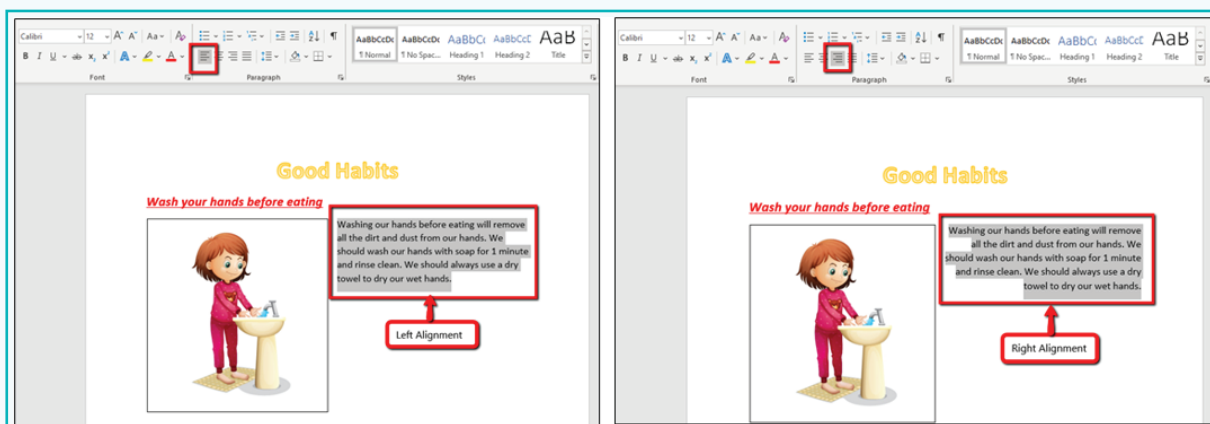

Activity

15 Arrange the text

Text alignment decides the position of text in the document. For example: left, right, centre and justify.

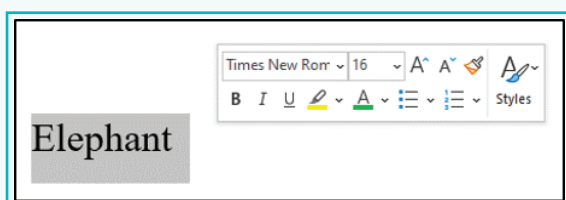

- **Left** : Align text to the left
- **Right** : Align text to the right
- **Centre** : Align text to the centre
- **Justify** : Adjust text to fill the entire line

Examples of alignment :

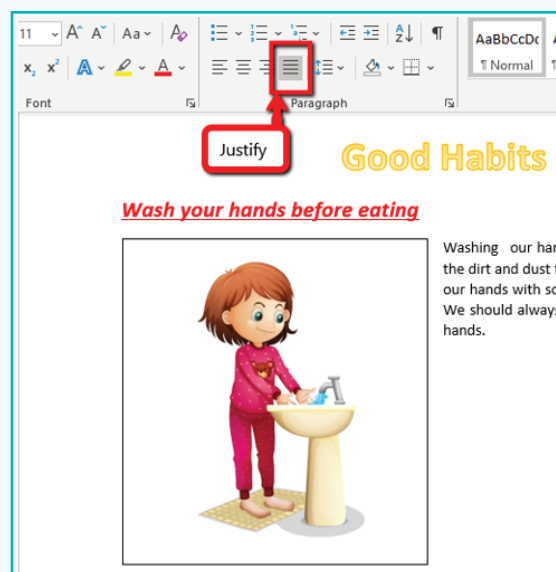

Quick formatting window:

If we select any text, a small window pops up on the document. We use this to format text.

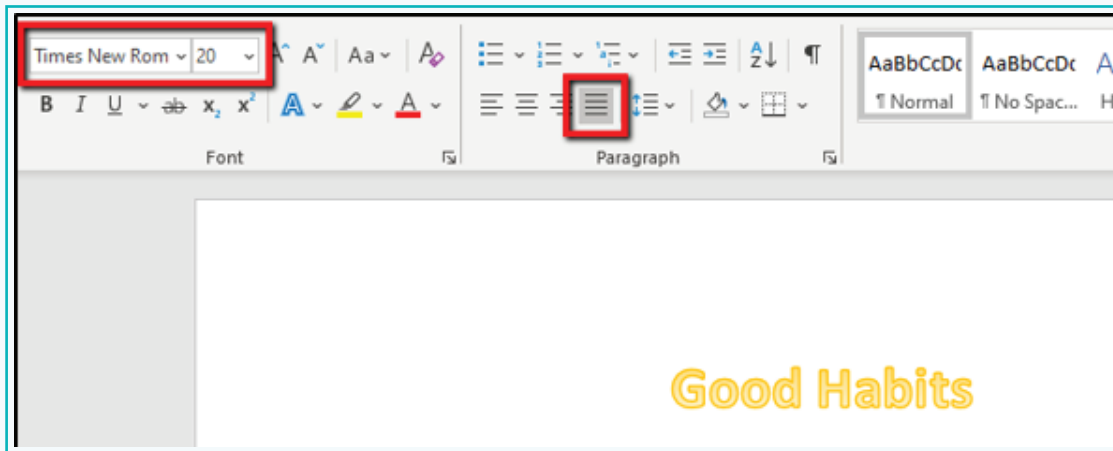

Justify the text

Activity

- Change the font to **Times New Roman** and text size to **20**.

Good Habits

Wash your hands before eating

Washing our hands before eating will remove all the dirt and dust from our hands. We should wash our hands with soap for 1 minute and rinse clean. We should always use a dry towel to dry our wet hands.

Brush your teeth daily

Trim your nails regularly

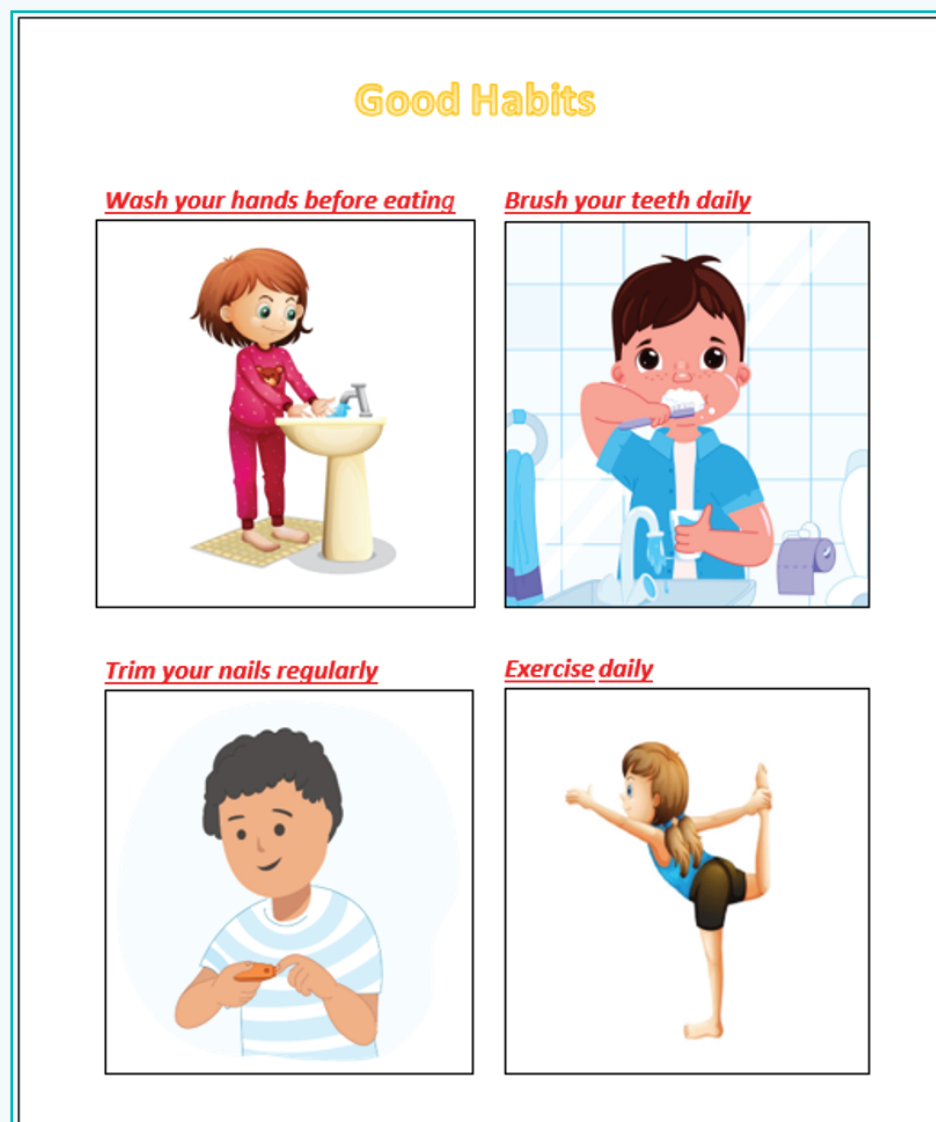

Exercise daily

Final output

Activity

- 16 Use the same process to add other habits and complete the display board.

Example :

Exercise

Tick mark ☒ the correct answer:

3 We can change the colour of the text with_____.

a. Text effects ☐

b. Font color ☐

c. Styles ☐
